

ISO DET

Hydroalcoholic decontaminant sanitizer with chlorhexidine digluconate

FEATURES

Hydro-alcoholic detergent with chlorhexidine suitable for cleaning and decontamination of all washable surfaces and equipment.

It is used in the food industry, in the community in general, in catering and healthcare companies.

The combined action of alcohol (75%) and chlorhexidine digluconate guarantee efficacy and excellent results in all conditions of use.

APPLICATIONS

Washing and sanitizing of washable surfaces in general, floors, tiles, walls, fixtures, furnishings, sanitary equipment in stainless steel or plastic.

ADVICE FOR USE

Spray as it is on the surface to be cleaned, rub and wait at least 30-40 seconds before removing the dirt with a paper or non-woven cloth.

PACKAGING

Box of 12x750 ml

STORAGE

The product retains its chemical, physical and technical characteristics unaltered if stored in a covered place and at temperatures between +5 and + 30 ° C.

BIODEGRADABILITY

biodegradation:

The surfactants contained in this product comply with the biodegradability criteria established by the Regulation (EC) n.648 / 2004 relating to detergents.

CHEMICAL PHYSICAL FEATURES

Appearance: Clear pink liquid

Odour: characteristic of alcohols

pH: 8,5 - 9,56 at 100%

Melting point/freezing point: -30°

Initial boiling point and boiling range: 83°

Flash point: 18°

Flammability (solid, gas): Not applicable

Upper/lower flammability or explosive limits: Not applicable

Relative density: 0,835 - 0,840 Kg/dm³ a 20° C.
