2020 EDITION
FLASHGIFT

Company profile

We are the leading brand in Europe in the promotional market for customized USB flash-drives, mobile and tech accessories. With our constantly expanding catalogue we are able to supply the best solution for every promotion or marketing need.

Our qualified support team is always available to guide you during the whole order process, from the initial request and the sample creation to the final product delivery.

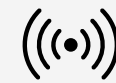

In the next pages you will find over 150 products divided among 9 categories, all customizable with your company logo and graphics. They will be the perfect, valuable and cost effective gifts.

Be sure to take a look at our best selling products, with a 100% CUSTOM DESIGN: we can provide you gadgets completely customizable, both in shapes and colors. Share with us your idea and we will create a bespoke promotional accessory either in a 2D or 3D shape.

Service

TECHNOLOGY GOES WIRELESS

Like never before, our catalogue is full of new products – both in terms of variety and technological innovation, especially in the category of wireless devices.

MARK THE DIFFERENCE

In our catalogue you will find products that can mark the difference between a classic company gadget and a high-end gift, perfect for the most original and ambitious projects that we will realize together with you.

YOUR BUDGET IS KING

A range of flexible prices, adaptable to every budget, from the lowest to the highest, from keychains to Bluetooth audio products.

UNBEATABLE FACTORY PRICES

From budget-friendly giveaways to top quality items, we offer always the best prices in the market.

URGENT ORDERS IN ONLY 24/48 HOURS

A selection of our best selling products shipped from our premises within only 24/48 hours from the order confirmation, thanks to our ready-for-delivery service.

TRY US WITH JUST 50 UNIT

In our catalogue you will find a large number of products with minimum order quantity of only 50 pieces

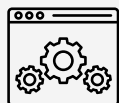

LIFE WARRANTY AND CERTIFICATIONS

All our products are CE, FCC, REACH and RoHs certified. All our USB flash-drives are life-time guaranteed and we ensure legal warranty for all the products in the catalogue.

CUSTOM DESIGN TO GIVE SHAPE TO YOUR IDEAS

With our 100% Custom Design service you can promote your business in a truly original way with products based on entirely customized concepts.

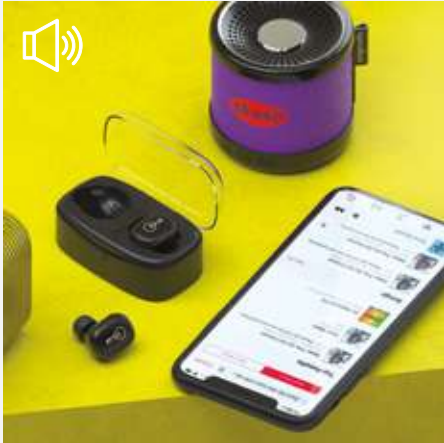

USB FLASH-DRIVES WITH A DIGITAL TWIST

Along with the USB flash-drives we offer you a wide set of digital services, ranging from data preload to icon customization.

No more low battery blues!

Power Banks and Wireless Chargers

Power Banks allow you to store energy and use it to charge any mobile device, which can be crucial while far away from a wall outlet. No surprise that they are a perfect promotional gift, even better with the cutting-edge

wireless technology. Try our wireless chargers and the induction power banks, perfect to combine the advantage of recharging on-the-go with the convenience of a total absence of cables.

Power Vinyl

CAPACITY: 5.000
10.000 mAh

PB064

Wireless Ray Glass

OUTPUT: 5W

WC010

SIZE: 9,2 × 6,4 × 2,3 cm
PRINT AREA: 8,9 × 6,2 cm
CUSTOMISATION: CMYK Printing, Glitter print

Power Bank with black frame with a rubber effect and glass-tempered surface customisable with CMYK logos and graphics. The tempered glass allows to highlight the brightness and shininess of the colours. This power bank is small, but its battery can have up to 10,000 mAh with a 2A output.

SIZE: Ø 7,5 × 1,0 cm
PRINT AREA: Ø 6,5 cm
CUSTOMISATION: CMYK Printing, Glitter print

Round thin 5 cm diameter wireless charger. Its frame, with a black rubber-effect rim, is covered in tempered glass on the top part. This special polished, mirror finishing enhances the company logo or the design chosen for customization and gives the frame a coated, elegant feel.

Power Shield

CAPACITY: 4.000 - 5.000 mAh

PB061

SIZE: 14 × 6,9 × 1 cm
PRINT AREA: 13,1 × 6,5 cm
CUSTOMISATION: CMYK Printing, Glitter print

Power Bank with black rubber-effect body, with the upper part in tempered glass, whose high-gloss finish dramatically emphasises the four-color graphics. The outstanding feature of this model is that it allows you to make the most of the company logo or graphics selected for personalisation; the tempered glass confers a glossy and elegant look.

Tempered glass: stronger, smoother, clearer.

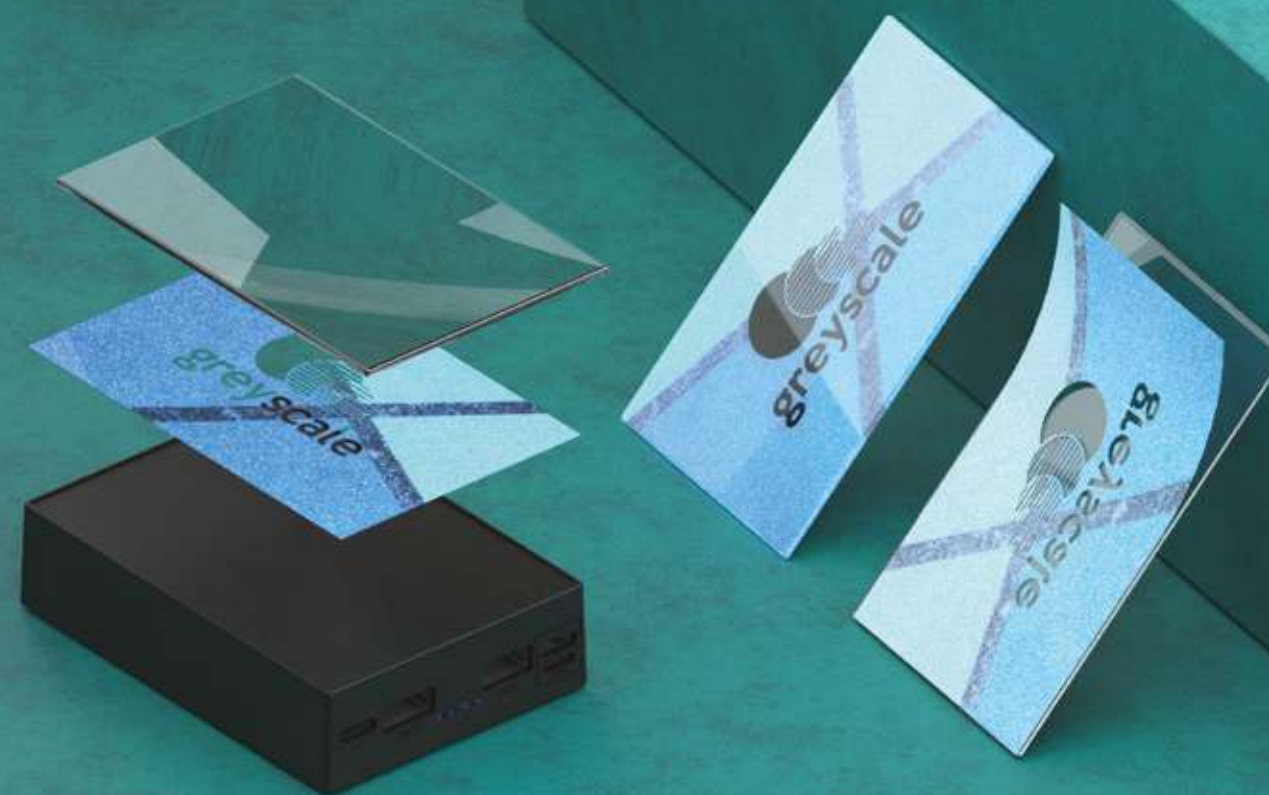

Tempered glass – sometimes called toughened or safety glass – is glass which has been heat-treated and then rapidly cooled, in a controlled manner. This process makes the glass much more resilient than plain flat glass.

A benefit of tempered glass is in fact its strength, and because of the process of heating, it cannot be damaged by higher temperatures.

Tempered glass is not easily scratched or damaged, it is five times thicker than plastic and tends to be smoother and clearer.

Because of its natural brightness, the colors appear intense and shimmering, making the personalized graphic stand out much more than on any other material.

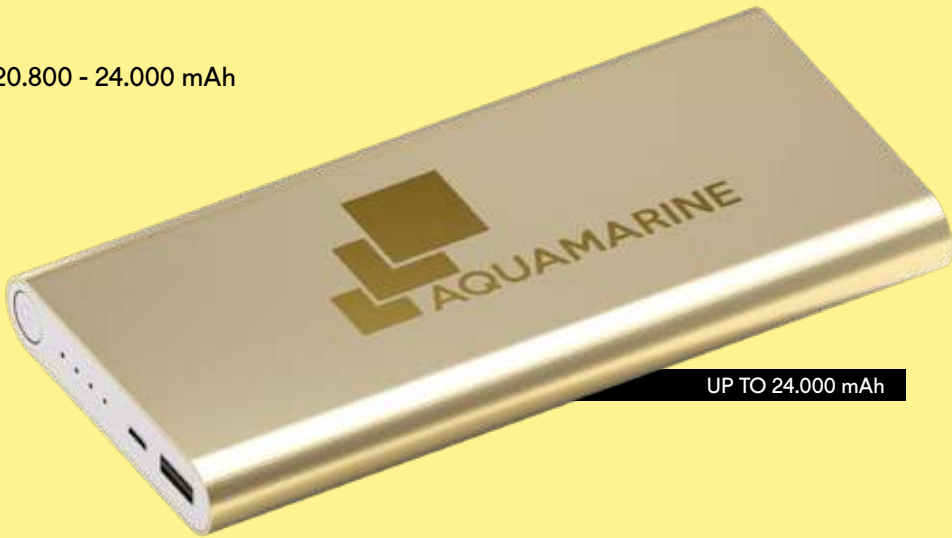

Choose our products with a tempered glass surface to get an unconventional gadget!

Power Lot

CAPACITY: 17.600 - 20.800 - 24.000 mAh

PB062

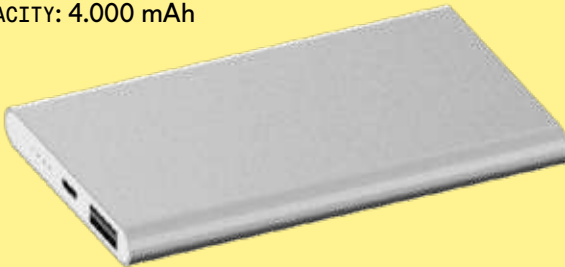

SIZE: 15,8 × 7,7 × 2,2 cm
PRINT AREA: 15,4 × 5,3 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

This housing is available in glazed silver, glazed gold and black versions, and can be customised on both sides using serigraphy printing or laser engraving. On one of the short sides, you will find the 2A USB ports, the on/off button, and the LED indicators that show the status of the battery charge.

Power Sharp

CAPACITY: 4.000 mAh

PB012

SIZE: 11,0 × 6,8 × 1,0 cm
PRINT AREA: 10,5 × 5,6 + 10,5 × 5,6 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Flat rectangular metal Power Bank. It features a very extensive metal surface, which is ideal for customisation because it can accommodate even large-size printed logos or graphics. Power Sharp can be customised on both sides using silk-screen printing or laser engraving.

Power Chunk

CAPACITY: 8.000 mAh

PB013

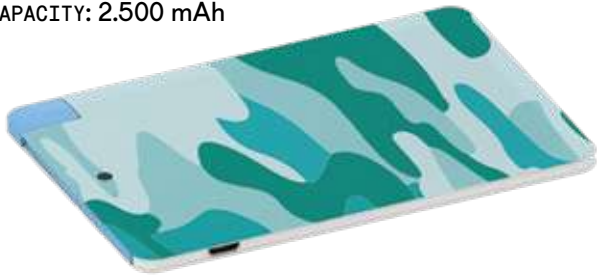

SIZE: 11,3 × 7,2 × 1,6 cm
PRINT AREA: 10,8 × 5,6 + 10,8 × 5,6 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Polished metal rectangular medium-sized Power Bank. The surface is embellished by a light satin finish that lends it an elegant and sophisticated style. Power Chunk boasts an outstanding charge capacity of 8000 mAh. It also features an extensive print surface and it can be customised using silk-screen printing and laser engraving.

Power Ticket 2 in 1

CAPACITY: 2.500 mAh

PB014

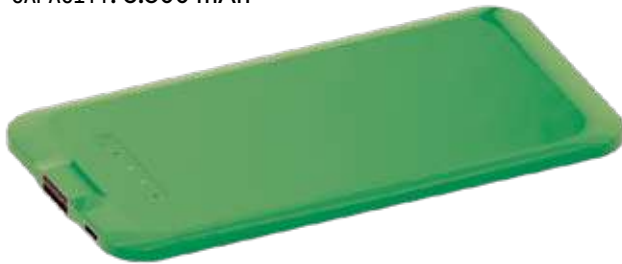

SIZE: 9,7 × 6,3 × 0,7 cm
PRINT AREA: 9,7 × 6,3 + 9,7 × 6,3 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Plastic Power Bank featuring the typical shape and size of a credit card. Its ultra-slim thickness makes it easy to carry around in your pocket or wallet, to have it at hand at all times. It is equipped with a connector with a side outlet to recharge devices and a micro USB to lightning adapter.

Power Thin

CAPACITY: 3.500 mAh

PB018

SIZE: 12,2 × 6,7 × 0,8 cm
PRINT AREA: 9,5 × 5,3 + 11,0 × 5,3 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Plastic rectangular Power Bank featuring an ultra-slim design. This is one of the thinnest models in the range and it is light-weight and practical to use. It has a very extensive print surface and it is fitted with a charge indicator light on one side. Power Thin can be customised on both sides using silk-screen and CMYK printing on a white body.

Power Ticket 3 in 1

CAPACITY: 4.000 mAh

PB063

SIZE: 11,5 × 6,7 × 0,9 cm
PRINT AREA: 11,4 × 6,6 + 11,4 × 6,6 cm
CUSTOMISATION: Silk-screen Printing, UV Printing

A 4000 mAh and 1A output Power Bank with a plastic frame and double Type C and Lightning connector. It is ultra-thin and is perfect as an emergency charger to keep in your pocket or bag. In order to connect it to your phone, you do not need cables because the Type C and Lightning connectors, located in the frame, pull out on the side and are ready to be used.

Power Bamboo Rectangle

PB040

CAPACITY: 4.000 mAh

SIZE: 12,5 × 6,6 cm

PRINT AREA: 12,3 × 6,4 + 10,5 × 4,6 cm

CUSTOMISATION: Silk-screen Printing, Laser Engraving

Rectangular base Power Bank with a body with rounded corners entirely covered in bamboo. This model has a compact and elemental shape, and it is supplemented by the natural color of wood. The Power bank has a capacity of 4.000 mAh and its surface can be customised with silk-screen printed and laser-engraved graphics.

Power Bamboo Square

PB041

CAPACITY: 4.000 - 5.200 mAh

SIZE: 7,6 × 7,6 cm

PRINT AREA: 7,4 × 7,4 + 5,5 × 5,5 cm

CUSTOMISATION: Silk-screen Printing, Laser Engraving

Square base Power Bank with a body with rounded corners entirely covered in bamboo. The compact size and the thickness of just 2 centimetres lend this power bank a compact and elemental shape, which is teamed with the natural color of wood. The surface can be customised with silk-screen printed and laser-engraved graphics.

Maikii's contribution for an eco-friendly future

As a company dealing with electronics, we know that ecology is an issue. We are aware that when electronic waste is discarded in the trash irresponsibly instead of being recycled properly, the raw materials inside them spread toxic chemicals into the environment. For this reason, we are committed in following specific procedures for the disposal of broken or obsolete electronic components and materials.

However, our responsibility towards the environment goes beyond the duty imposed by the legislation – which is known in Italy as RAEE (Rifiuti di Apparecchiature Elettriche ed Elettroniche) and in Europe as WEEE (Waste Electrical & Electronic Equipment). We also want to play our role to reduce the amount of plastic and its's impact on the future.

How? With a new mindset.

Which means, providing an alternative: in our catalogue you will find products built with eco-friendly materials, such as recycled paper, bamboo and wood, to let your choice be mindful rather than conforming to the habit.

Looking forward plastic-free packaging within 2020.

Maikii is pushing forwards its commitment by adopting only recycled and eco-friendly packaging: our goal for year 2020 is to replace all the current packaging with new sustainable ones, made of recyclable and plastic-free materials. We hope this will help moving away from how we currently handle packaging - tearing open and throwing away, plus embracing a more conscious attitude towards the environment.

Make sustainability inspirational.

Your eco-friendly choice will be acknowledged and appreciated by your customers, providers and employees: let them know that you have taken a tangible action against the spread of plastic, by making responsible choices even in the way you promote your brand.

Power Shine

PB004

CAPACITY: 1.500 - 2.000 - 2.200
2.600 - 3.000 mAh

SIZE: 9,5 × 2,1 × 2,1 cm
PRINT AREA: 6,5 × 1,5 + 9,0 × 1,5
+ 9,0 × 1,5 + 9,0 × 1,5 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Slightly elongated slim rectangular-shaped metal Power Bank. The surface is embellished with a light satin effect that gives it an elegant look. It is equipped with a polished finish on-off button and a LED that indicates the loading status.

Power Blink LED

PB044

CAPACITY: 2.000 - 3.000 - 4.400 - 6.000 mAh

SIZE: 11,2 × 2,3 × 2,8 cm
PRINT AREA: All Over
CUSTOMISATION: Silk-screen Printing, All over printing

Elliptical Power Bank with bevelled profiles, fitted with a LED light torch at one end. The smooth, rounded plastic surface is ideal for all over printing, a type of customisation that makes it possible to print graphics in CMYK across the entire surface of the body without interruption.

Power Pocket

CAPACITY: 500 mAh

SIZE: 6,6 × 3,5 × 0,77 cm
PRINT AREA: 4 × 2,5 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Super small pocket-able Power Bank, the smallest in our range, ideal for emergency charging of your phone when travelling or away from home. The cable is equipped with a lightning connector with built-in micro USB adaptor, thus allowing charging of both Apple and Android devices.

PB059

Qi technology and wireless charging: what they are and how they work

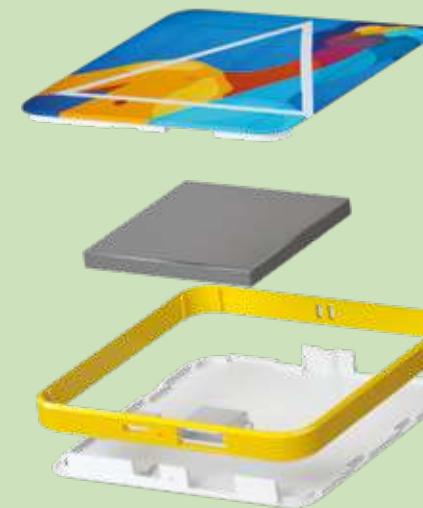

What is Qi technology?

Qi is the name of the universal standard that the Wireless Power Consortium, the reference body of the sector, has assigned to the charging system that exploits the phenomenon of electromagnetic induction.

Why wireless?

Since the induction allows the passage of energy from one device to another through simple contact, the products that are equipped with it are called wireless, as they don't need any of the classic USB cables.

What is the difference between the various charging systems?

Power Bank WHEN YOU NEED EXTRA ENERGY!

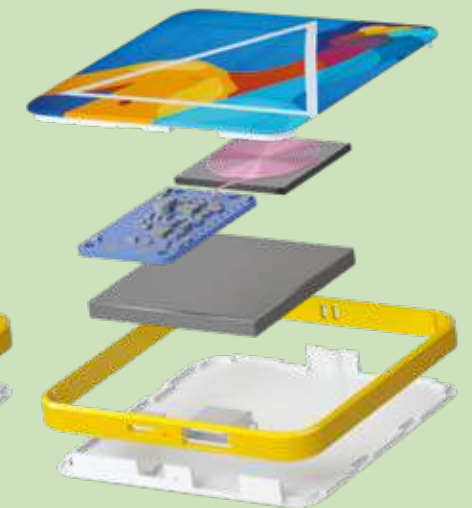

A power bank is a genuine external battery that recharges your smartphone via a USB cable. It only works if it has in turn been previously charged via USB cable connected to a PC or a wall power socket.

Wireless Charger THE MAGIC OF MAGNETIC INDUCTION

Unlike the Power Bank, the charger does not have a battery inside it but rather a metal coil that allows energy to flow from one device to the other via induction (and so wireless).

All you need is for the phone to be placed on top of the charger. However, for it to work, the wireless charger needs to have a power source at hand, which could either be a PC or a power socket which it has to be connected to via USB cable.

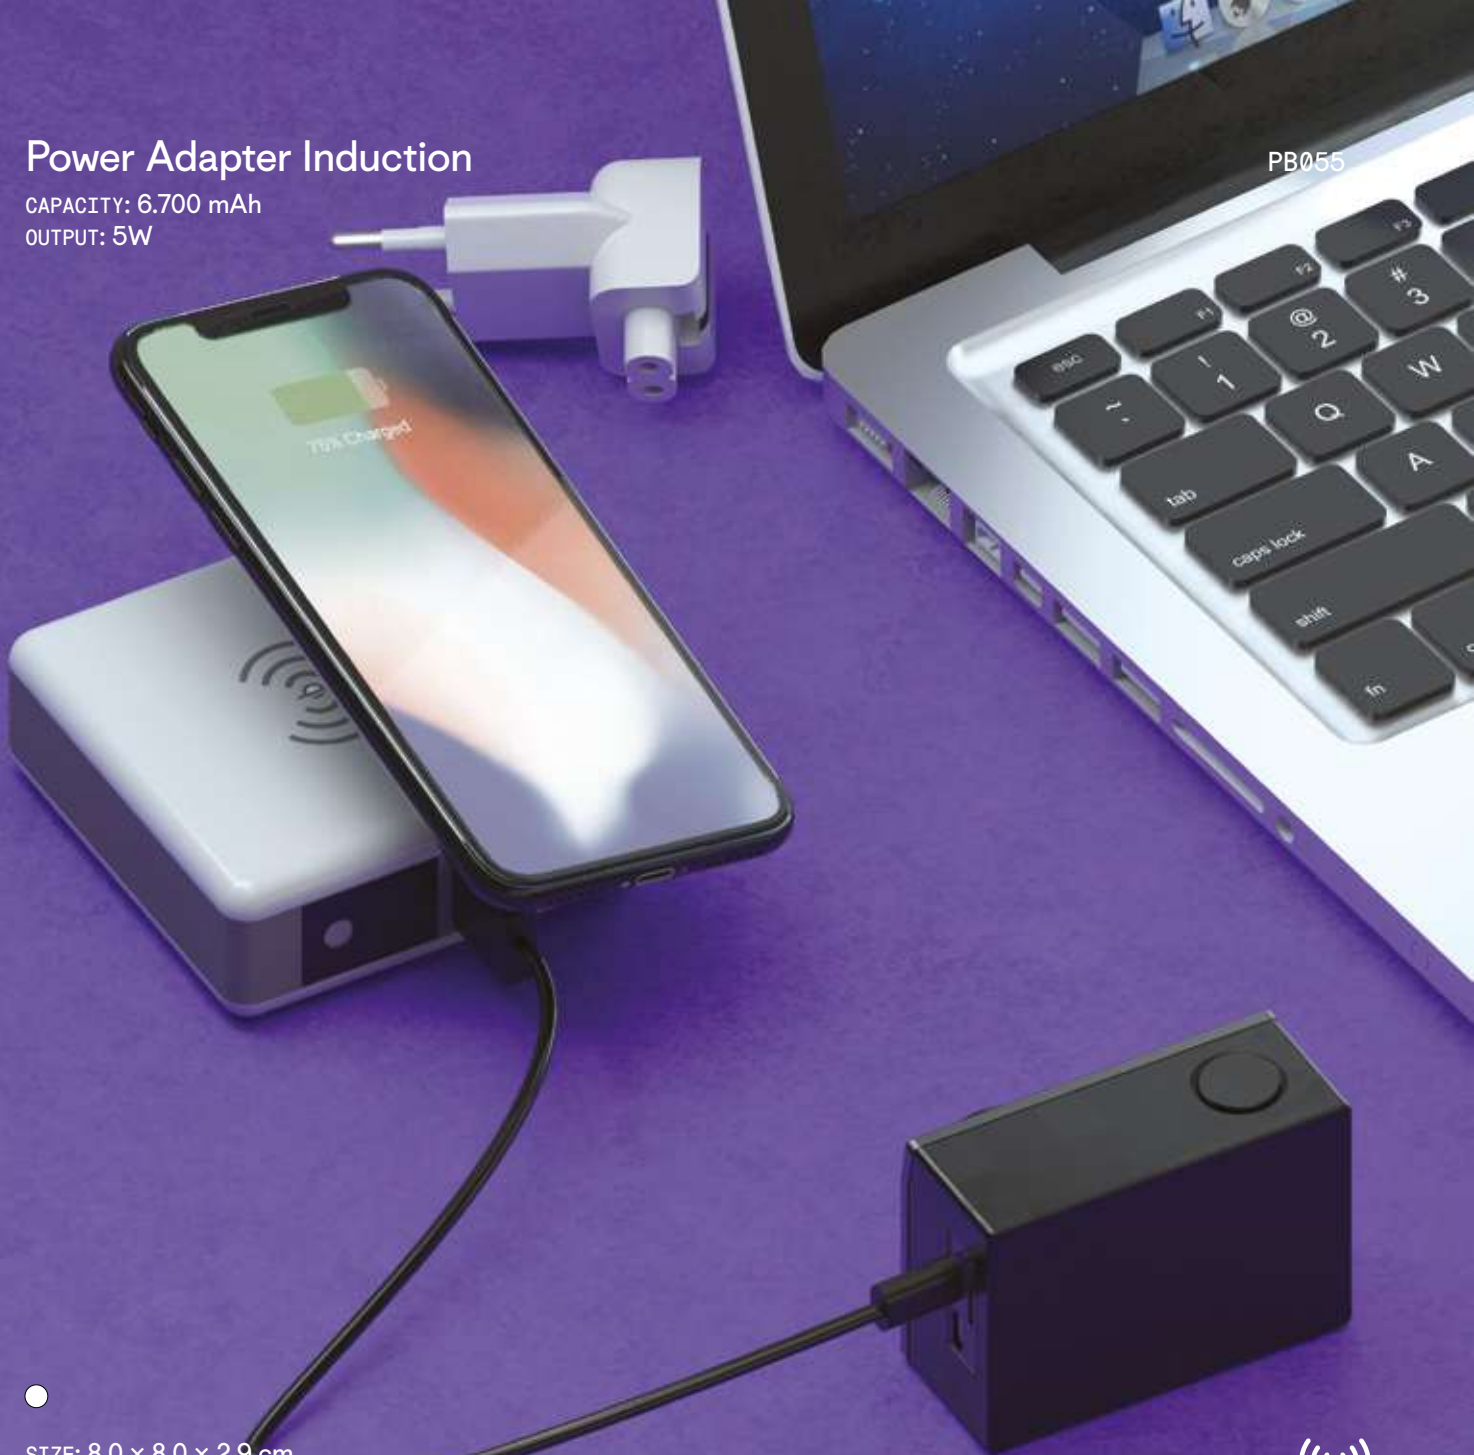

Induction Power Bank FREE UP MORE ENERGY!

An Induction Power Bank is a wireless Power Bank that combines the advantage of recharging your phone on-the-go with the convenience of a total absence of cables.

The body contains both a battery and a coil which conveys energy to the smartphone wirelessly. This means that once it has been recharged, the wireless Power Bank does not need to be connected to a power source.

Power Adapter Induction

CAPACITY: 6.700 mAh
OUTPUT: 5W

SIZE: 8,0 × 8,0 × 2,9 cm
PRINT AREA: 5,0 × 6,4 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Power bank with induction technology designed to charge devices in both wireless mode as well as via USB cable. This model is designed to be charged directly from a wall power socket, thanks to the plug which is housed in the body and which can be used when necessary: the basic version includes a European plug, but a set which also contains an Australian, an English and an American plug can also be selected

during configuration. This means the power bank can also be used as an adapter, and the two USB ports can be used to charge two devices simultaneously, while the USB Type C port can be used to charge the power bank itself quickly. One side of the body also features a display indicating the battery charge level. This model can be customised with silk-screen printed and laser-engraved company logo.

Power Layer

PB042

CAPACITY: 2.000 - 2.600 - 3.000
4.000 - 5.000 mAh

SIZE: 8,0 × 8,0 × 1,5 cm
PRINT AREA: 8,0 × 8,0 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Square plastic Power Bank, slimline and with rounded corners. The side profiles feature grooves that stretch along the entire perimeter. The top surface offers an extensive printing area which can be customised with silk-screen printed and CMYK printed logos and graphics.

Wireless Layer

WC008

OUTPUT: 5W - 7,5/10W

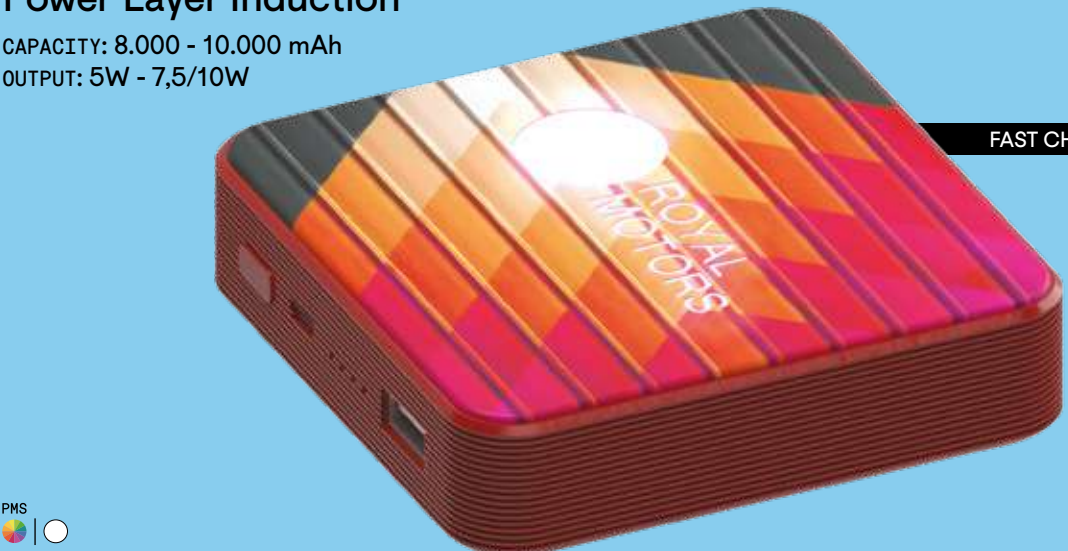

SIZE: Ø 7,6 × 0,9 cm
PRINT AREA: Ø 7,3 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo

Battery charger equipped with wireless technology. It is possible to charge the smartphone without connecting it via cable, but simply by placing it on the surface of the device. It uses the Qi standard and works through magnetic induction. The plastic frame is round and, on the sides, there are grooves which run along the entire rim.

Power Layer Induction

PB056

CAPACITY: 8.000 - 10.000 mAh
OUTPUT: 5W - 7,5/10W

SIZE: 9,0 × 9,0 × 2,2 cm
PRINT AREA: 8,8 × 8,8 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo

Square plastic Power Bank featuring induction technology, which can be used to charge your smartphone both using the USB cable (provided) as well as in wireless mode, without having to connect it to a power source, but simply resting it on the surface of the charger.

Wireless Gloss

WC006

OUTPUT: 5W

SIZE: Ø 10,0 cm
PRINT AREA: Ø 4,0 cm
CUSTOMISATION: Silk-screen Printing

Battery charger equipped with wireless technology with which it is possible to recharge a smartphone without connecting it via a cable but simply by placing it on the surface of the device. The shell has a round base and a transparent plastic edge, upon which the micro USB port, for connecting to an energy source.

Wireless Bamboo Round

WC005

OUTPUT: 5W

SIZE: Ø 9,0 cm
PRINT AREA: Ø 8,0 cm
CUSTOMISATION: Silk-screen Printing, Embossing

The real bamboo shell has a round base with a micro USB port and small lateral LEDs that shine when the battery charger is connected to an energy source. The surface can be personalized via silk-screen printing and laser engraving. This accessory is compatible with smartphones that are equipped with integrated Qi technology.

Wireless Toby

ED000

OUTPUT: 5W

SIZE: 16 × 7,7 × 4 cm
PRINT AREA: 13 × 5 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Perfect as a furnishing accessory thanks to its clean and minimalist design, this product brings together the functionality of many everyday objects: it can, for example, be used to charge a smartphone during the night, taking advantage of the alarm function. It also includes an energy-saving stand-by mode.

Wireless Slim

WC013

OUTPUT: 5W - 10W

SIZE: Ø 9,8 × 0,6 cm
PRINT AREA: Ø 8,0 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Battery charger equipped with wireless technology. It is possible to charge the smartphone without connecting it via cable, but simply by placing it on the surface of the device. It uses the Qi standard and works through magnetic induction. The energy emission is 5W or 10W in the fast charge version. The round plastic disc is only 5mm wide.

What is LED Logo?

The LED Logo printing is a terrific and creative way of personalizing your promotional products, it makes the logo or the applied graphics stand out dramatically thanks to the LED backlight that lights up when the device is in use.

This unconventional technique works by using the color to delimit void and filled areas, in order to let the light pass through and lighten up only chosen sections of the surface, creating an original contrast effect that enhances the logo like no other printing technique.

Some products of our catalogue allow also to create layers of color with higher or lower density: this makes the graphics even more elaborate and sophisticated, emphasized by the kaleidoscopic light contrast.

Wireless Pad

OUTPUT: 5W - 7,5/10W

WC012

SIZE: 24 × 19,5 × 0,6 cm
PRINT AREA: 23,5 × 19 cm
CUSTOMISATION: CMYK Printing, Embossing

The Wireless Pad is a mouse pad that also act as a 5W wireless smartphone or mouse Bluetooth charger equipped with induction technology. The base of the pad is made of anti-slip rigid plastic, while the top surface is covered in eco-leather.

Wireless Tray

OUTPUT: 5W

WC011

SIZE: 25 × 10 × 1 cm
PRINT AREA: 13 × 5 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo

Office penholders which can be used even at home to hold the items you carry in your pockets, with a surface designed for the cable-less induction-charging of your phone. It is a fully multifunctional item because it combines the practicality of a wireless charger with the functionality of a piece of décor.

Power Wave LED

CAPACITY: 4.000 - 5.000 - 6.000 mAh

PB060

BODY: ● LIGHT: ○ ● ● ● ● ●

SIZE: 12 × 6,5 × 1,3 cm
PRINT AREA: 11,7 × 6,2 cm
CUSTOMISATION: CMYK Printing, LED Logo, Silk-screen Printing

Power Bank with LED light integrated into the body, which is activated by means of the motion sensor. The printing of the logo or graphic is enhanced by the back-lit effect of the LED light, available in five color variations. The slim body has a rectangular base with rounded corners, and the surface has a rubber-effect finish.

Power Wave Induction

CAPACITY: 4.000 mAh
OUTPUT: 5W

PB065

BODY: ● LIGHT: ○ ● ● ● ● ●

SIZE: 12 × 6,5 × 1,3 cm
PRINT AREA: 11,7 × 6,2 cm
CUSTOMISATION: CMYK Printing, LED Logo, Silk-screen Printing

The induction Power Bank with integrated LED lighting in the frame activates thanks to the movement sensor. The top surface is customizable with LED prints, a technique which highlights the logo or design thanks to backlighting which is activated when the power bank is touched or shaken. The LED light is available in five colors in order to make the logo stand out.

Power Nova induction

CAPACITY: 2.000 - 3.000
4.000 - 5.000 mAh
OUTPUT: 5W

SIZE: Ø 10,0 cm
PRINT AREA: 9,6 × 9,6 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo

Power Bank with plastic shell and round base, equipped with wireless technology. The battery is available in four capacities from 2.000 mAh to 5.000 mAh. The whole surface of the plastic disc is customizable with logos and graphics printed using silk-screen printing, CMYK printing and LED Logo.

Wireless Pulse

OUTPUT: 5W - 7,5/10W

WC001

FAST CHARGE

SIZE: Ø 10,0 × 0,8 cm
PRINT AREA: Ø 9,6 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo

The entire surface of the plastic disc can be customised with graphics and logos using silk screen-printing, CMYK printing and LED Logo, a technique that creates layers of color with a relief effect combined with the back-lit LED light.

Wireless Shuttle

OUTPUT: 5W - 7,5/10W

WC002

FAST CHARGE

SIZE: Ø 10,0 × 1,3 cm
PRINT AREA: Ø 9,6 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo

The charging base is an ultra-slim, lightweight plastic disc, fitted with a micro USB port and a small LED light that comes on when the battery charger is connected to a power source. This model also features four additional USB ports to charge several devices simultaneously.

Wireless Ray LED

OUTPUT: 5W

WC009

BODY: ●

LIGHT: ○ ● ● ● ● ●

SIZE: Ø 7,5 × 1,1 cm
PRINT AREA: Ø 5,0 cm
CUSTOMISATION: CMYK Printing, LED Logo, Silk-screen Printing

Small round wireless charger, thin and only 5 cm in diameter. It has a black rubberised finish and is equipped with an internal LED that enhances the display of the logo or graphic of your choice. As with other wireless chargers, this model, equipped with Qi technology, is only compatible with smartphones that support induction charging.

Power Shake LED

CAPACITY: 4.000 - 6.000 - 8.000 mAh

PB058

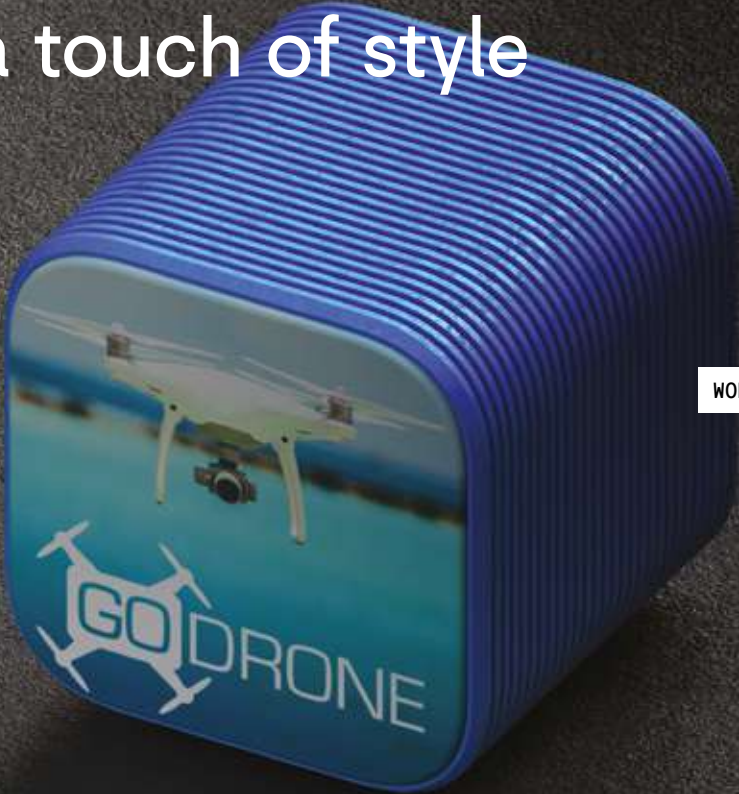

BODY: ●

LIGHT: ○ ● ● ● ● ●

SIZE: 13,7 × 7 × 1,5 cm
PRINT AREA: 10 × 4,5 cm
CUSTOMISATION: CMYK Printing, LED Logo, Silk-screen Printing

Power Bank with motion sensor: just shake it slightly to activate the bright LED incorporated in the body, which emphasises the logo or graphics chosen. The rubber-effect finish creates a pleasant contrast with the high-gloss plastic end of the body, which houses the charging indicator lights.

Promotional gadgets sharing a touch of style

WONDER BLUETOOTH TWS

POWER LAYER INDUCTION

When choosing a promotional product, you can focus either on its usefulness or on its look, both aspects are important.

However, esthetic becomes crucial if you decide to follow a specific communication path or an image leitmotiv.

You can then choose more than one product, each one different for its functionality and use, but all with a common distinctive feature.

In our catalogue you will find the perfect items to get this stylistic goal. Discover our range of products with shell side profiles featured by grooves that stretch along the entire perimeter: they are all different, but they match perfectly one another!

With orders equal or superior to 100 pieces you can choose whatever color you want!

POWER LAYER

LAYER MULTICABLE

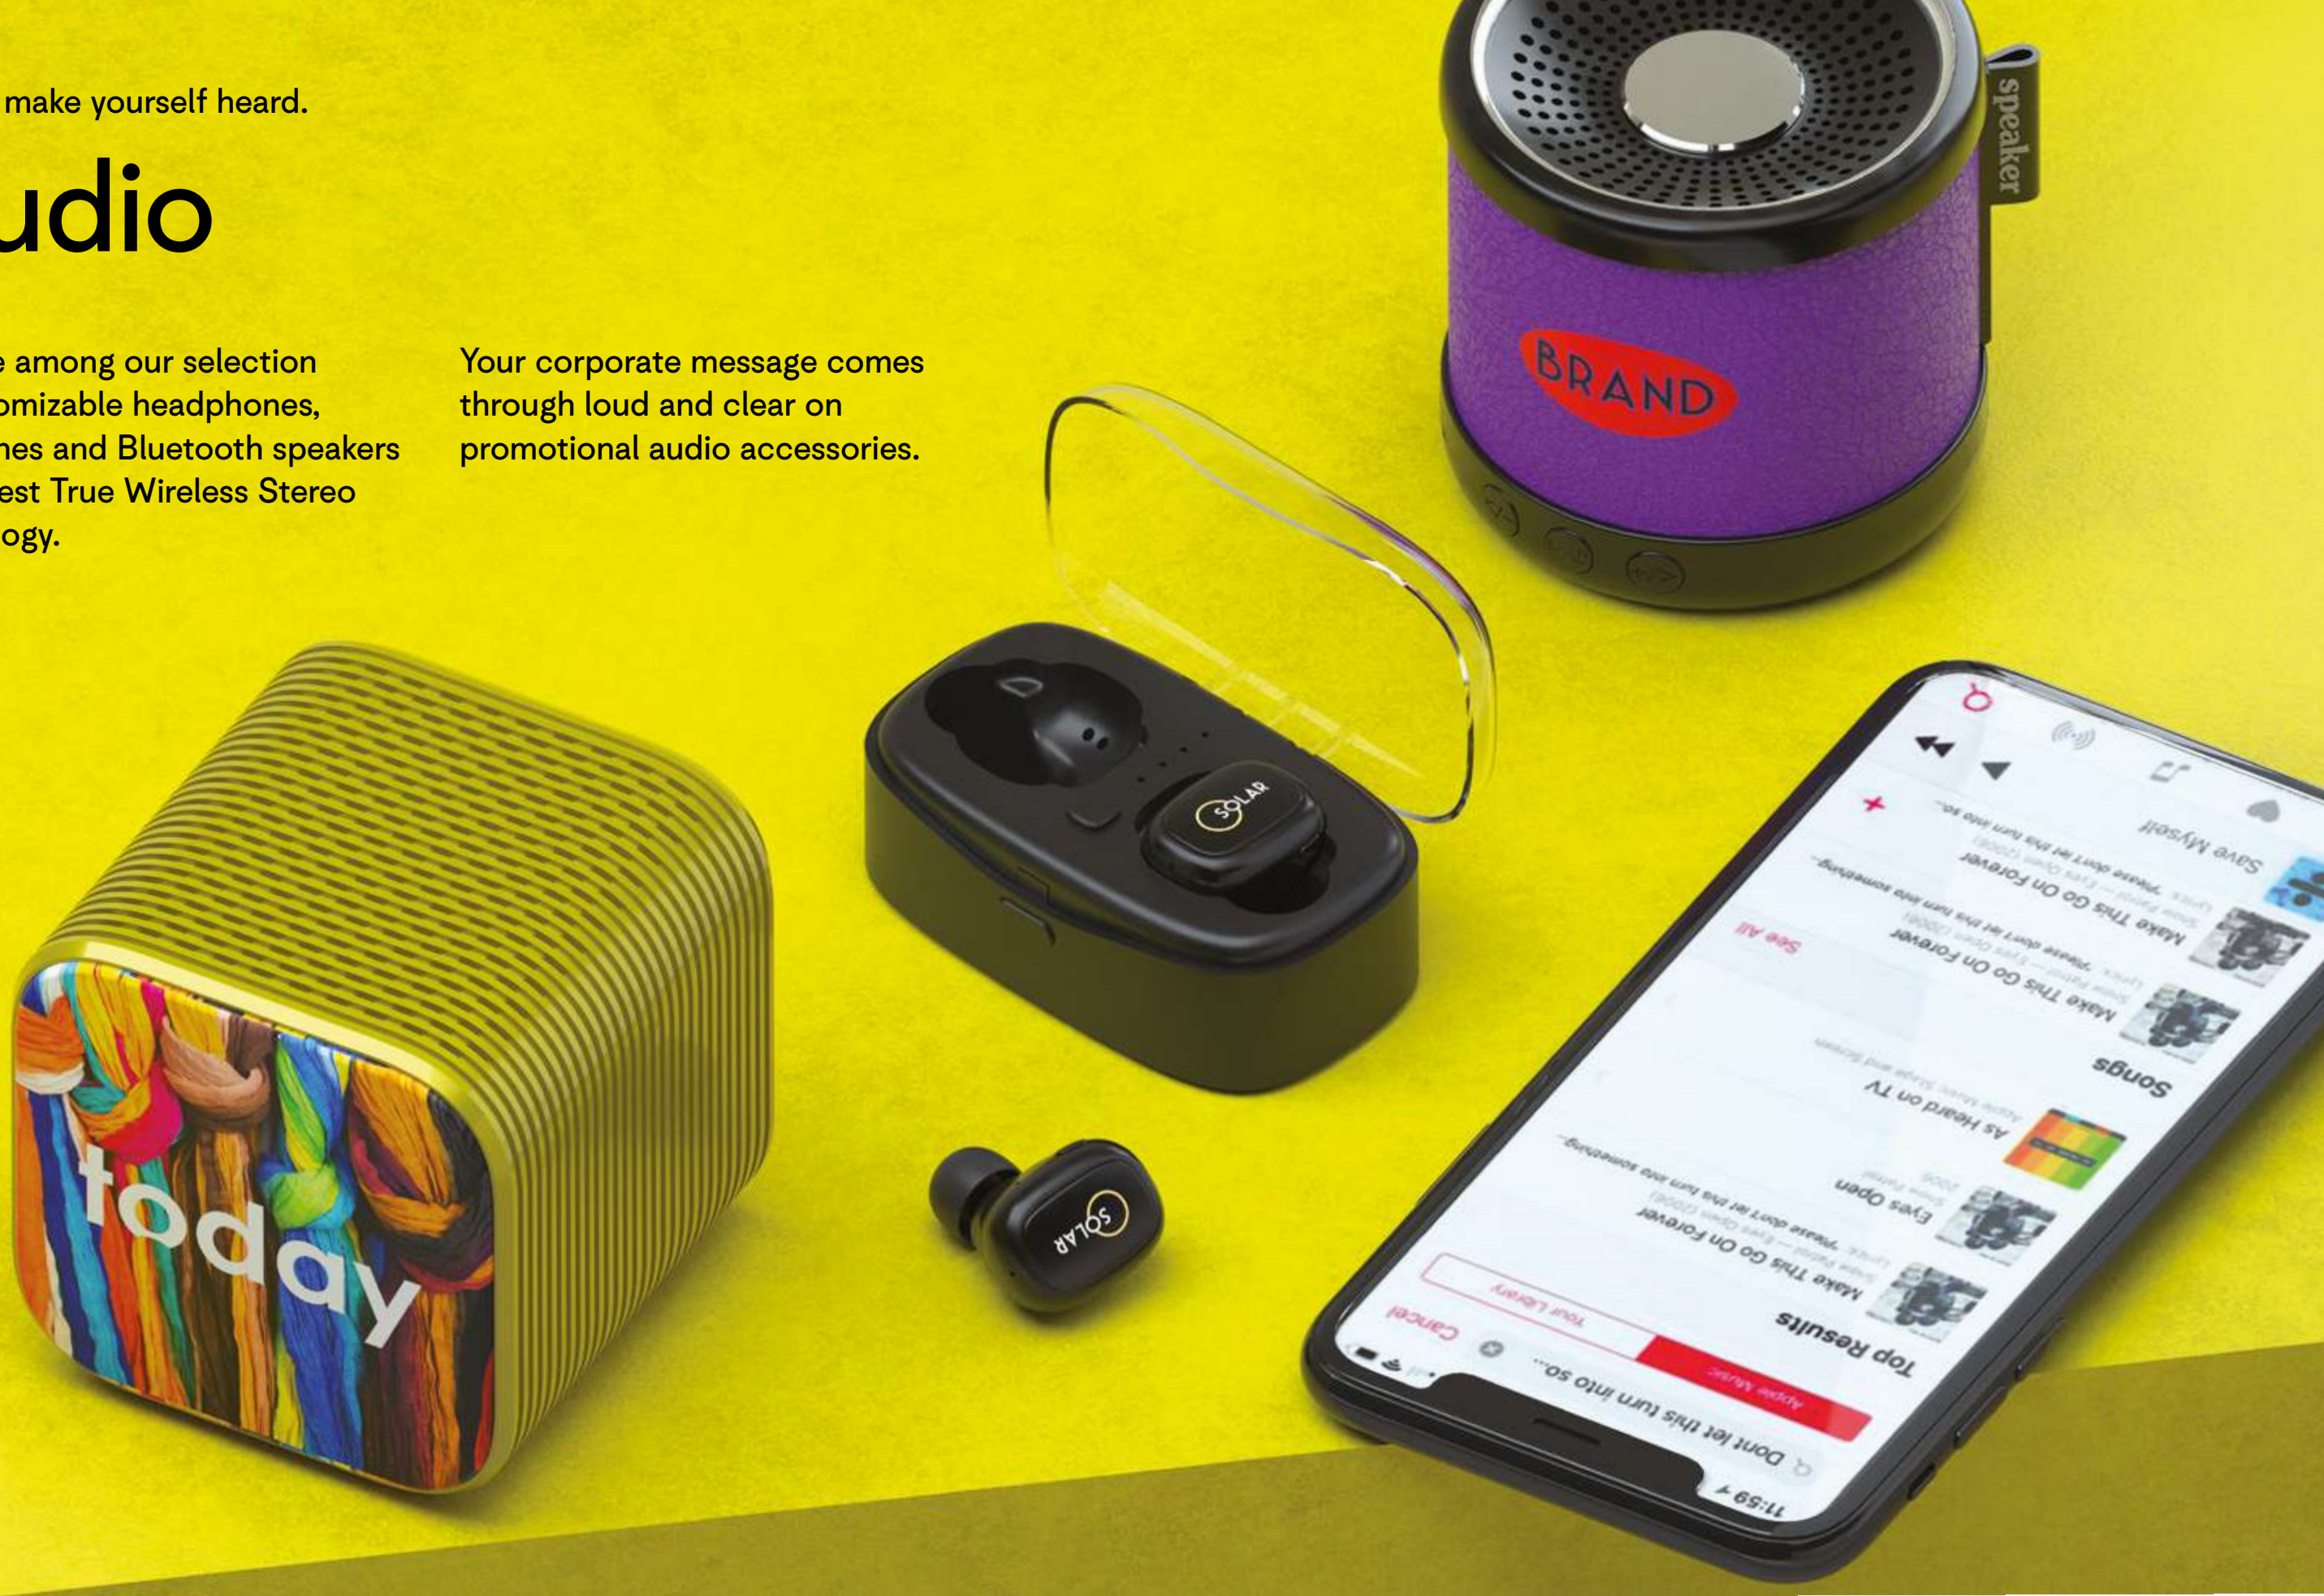

How to make yourself heard.

Audio

Choose among our selection of customizable headphones, earphones and Bluetooth speakers with latest True Wireless Stereo technology.

Your corporate message comes through loud and clear on promotional audio accessories.

Pair Pod

Pair Pod Mini

SIZE: 4,8 × 5,7 × 2,3 cm
PRINT AREA: 2,5 × 2,0 cm + 2,5 × 2,0 cm
CUSTOMISATION: Silk-screen Printing, UV Printing

Thanks to the integrated microphone, you can make phone calls without the need for inconvenient cables. 4.2 Bluetooth guarantees a range of 10 metres. The headphones have 55mAh batteries and offer approximately 2 hours of independent listening. To charge them, just place them into their case.

TWS

Pair Pod Standard

SIZE: 5,4 × 6,7 × 2,8 cm
PRINT AREA: 2,5 × 2,0 cm + 2,5 × 2,0 cm
CUSTOMISATION: Silk-screen Printing, UV Printing

The Pair Pod ear buds are the most effective alternative to the original model of headphones with True Wireless Stereo technology and a case with magnetic induction charging base. The Bluetooth 5.0 version guarantees a coverage of 10 metres. The ear buds have 50 mAh batteries and a listening range of approximately 2 hours.

TWS

Join TWS

EP011

SIZE: 2,3 × 2,4 × 2,7 cm
PRINT AREA: 1,7 × Ø 1,1 cm
CUSTOMISATION: Silk-screen Printing, Tag Logo

Wireless Bluetooth earphones fitted with True Wireless Stereo technology. They come with a case which features a magnetic induction charging station. The 5.0 Bluetooth version provides a stable signal and a 10-metre transmission range. The 70 mAh battery of the charging station guarantees up to 5 hours of non-stop phone calls and music.

TWS

Buddy TWS

EP012

SIZE: 4,3 × 1,7 × 1,1 cm

CUSTOMISATION: Silk-screen Printing , CMYK Printing

Wireless Bluetooth ear buds featuring True Wireless Stereo technology and case with magnetic induction charging base. The 5.0 Bluetooth version provides a stable signal and a 10-metre transmission range.

Gemini Bluetooth

EP005

SIZE: 1,8 cm + 1,8 cm
PRINT AREA: Ø 1,5 cm + Ø 1,5 cm + 3,5 × 1,2 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

In-ear headphones equipped with Bluetooth 4.0 technology with a range of 10 meters. The two headphones are connected by a cable which houses a microphone, a Micro-USB port for charging and controls that allow you to adjust the volume, answer calls and control multimedia playback. The lithium battery has a 3-hour battery life.

Gemini

EP004

SIZE: 1,8 cm + 1,8 cm
PRINT AREA: Ø 1,5 cm + Ø 1,5 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

In-ear headphones with soft silicone rubber tops, available in three different sizes to ensure maximum adaptability to the ear during use. The external parts of the headphones have a large, round and flat surface that is customizable with the company logo printed on with screen printing and four-color printing.

TWS technology: the latest innovation in Bluetooth audio devices

The term TWS or True Wireless Stereo refers to a technology which allows you to pair two audio devices via Bluetooth, meaning that you can transmit the L channel (left) and the channel R (right) separately.

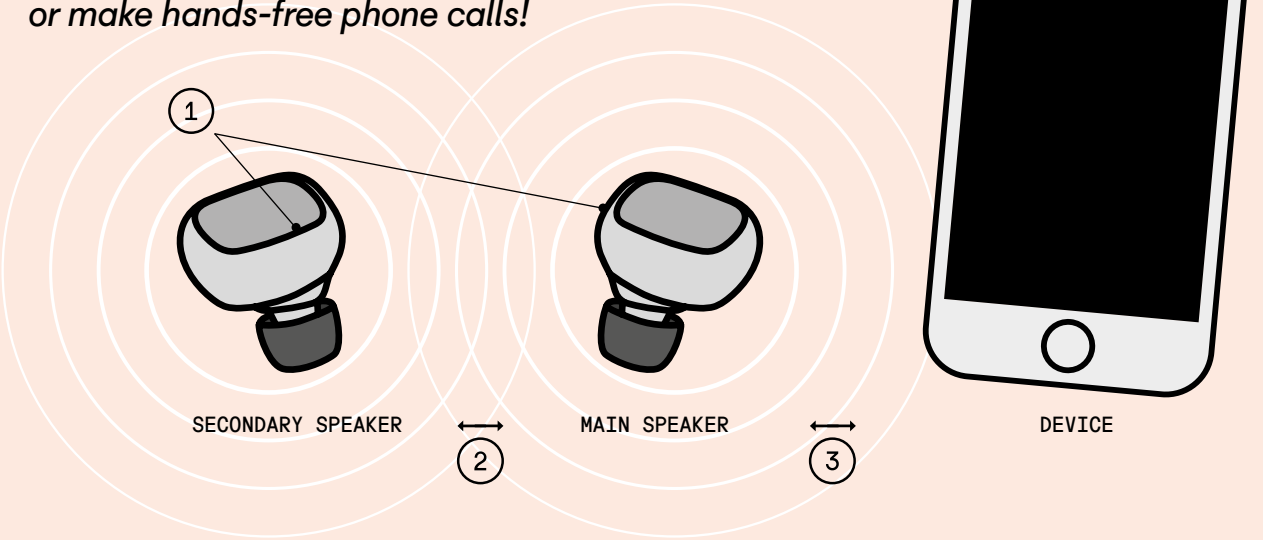

You can certainly imagine the advantage of such technology applied to earphones and Bluetooth speakers: due to the clear distribution of sound the true wireless stereos provide immersive and engaging audio experience!

TWS devices come with no wires attached, and this feature copes perfectly with the ultimate trend of the tech-friendly user: getting rid of cables to favor the most comfortable Bluetooth and wireless technology.

With the cable clutter gone, your living spaces look neat and orderly, which also implies greater freedom of movement and more interaction with your surrounding environment.

Most TWS devices come with a remote control or mobile app for the Bluetooth connectivity, which allows you to forward, skip, or replay the tracks you want, or manage phone calls using both the smartphone and the device.

Enjoy your favorite playlist in stereo sound or make hands-free phone calls!

How does the TWS Bluetooth pairing work?

First of all, you will need two TWS speakers or audio devices enabled for the pairing.

To simplify the explanation, let’s call one of the devices the “main speaker”, and the other the “secondary speaker”.

1. Turn on first the main and then the secondary speaker.

2. Now pair them by double-clicking or long pressing - depending on the product instructions - the power button of the main speaker.

3. Now that the two devices are paired, activate the Bluetooth settings on your smartphone, search and connect only to the main speaker, and... you are done!

Now you can enjoy your favorite playlist in stereo sound or make hands-free phone calls!

Dude TWS

EP008

TWS

SIZE: 2,1 × 1,6 × 2,2 cm
PRINT AREA: 3,0 × 0,3 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Wireless Bluetooth ear buds featuring True Wireless Stereo technology and case with magnetic induction charging base. The Bluetooth 4.2 version uses the Enhanced Data Rate (EDR) standard which boosts both speed and energy consumption compared with previous versions. The ear buds have 50 mAh batteries which guarantee 2.5 h of listening.

Bow Earphone

EP009

SIZE: 3,9 × 7,4 × 0,7 cm
PRINT AREA: 3,0 × 0,8 + 1,6 × 0,7 cm
CUSTOMISATION: Silk-screen Printing

This wireless model is a true extension of the smartphone, as it is equipped with a microphone for conversations and a speaker for listening, whether to phone calls or music playlists. The integrated 50 mAh battery can be charged using a USB cable and guarantees 2 hours of continuous use.

Drop Bluetooth

EP003

PRINT AREA: 0,7 × 3,5 cm
CUSTOMISATION: Pad Printing

In-ear earphones equipped with Bluetooth 4.0 technology with 10 meter range. The two ergonomic earphones are connected by a cable which has a microphone, micro USB port for charging and controls that allow you to regulate volume, answer calls and manage multimedia reproduction. The lithium battery has a lifetime of 3 hours.

Dot

SIZE: 1,5 cm × 1,8 cm
PRINT AREA: Ø 1,0 cm + Ø 1,0 cm
CUSTOMISATION: Pad Printing

Soft silicone earphones available in three different sizes to guarantee maximum adaptability to the ear during use. The external parts of the earphones have a round slightly bulging surface, are available in eight color variants and are customisable with the printed company logo.

Twist
Twist Bluetooth

CABLE: HP006
BLUETOOTH: HP005

SIZE: 18 × 13 cm
PRINT AREA: Ø 4 cm + Ø 4 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED logo (Bluetooth version only)

←TWIST — Foldable headphones for smartphones, tablets, TV, stereo or any other device equipped with a 3.5 mm jack. The main feature of the headphones is how light they are and the fact that you can fold and rotate the headphones to make them more compact when storing. The headband is adjustable and is covered in soft silicone on the metal part.

↑TWIST BLUETOOTH — The wireless 5.0 Bluetooth smartphone headphones are perfect for travelling thanks to their size and the chance to fold and rotate the headphones to make them more compact when storing. The headband is adjustable and is covered in soft silicone on the metal part. This product can be extremely original thanks to the colors you can play around with.

Tiny Bluetooth TWS

SP019

TWS

SIZE: Ø 3,7 × 4,3 cm
PRINT AREA: 1,8 × 2,5 cm
CUSTOMISATION: Pad Printing, Laser Engraving

Miniature wireless speaker with True Wireless Stereo technology and Bluetooth 3.0 version with 3W power, fitted with 300 mAh battery and a listening range of approximately 4 hours, for charging via USB cable. Measuring just 3 cm in diameter and 4 cm high, this is the smallest speaker in our catalogue. It is light-weight and compact.

Barrel Bluetooth TWS

SP023

TWS

SIZE: Ø 6,3 × 5,9 cm
PRINT AREA: All around
CUSTOMISATION: CMYK Printing, PVC logo in relief

Wireless 3W power Bluetooth 4.0 mini speaker. Its 500 mAh battery ensures about 4 hours of autonomy and it can be charged via a USB cable. If connected to a smartphone, the speaker also enables you to make/receive phonecalls thanks to the integrated microphone.

Wrap Bluetooth TWS

SP024

SIZE: 5,4 × 8,5 × 3,1 cm
PRINT AREA: All over
CUSTOMISATION: CMYK Printing, LED Logo, All over printing

Wireless 3W power Bluetooth 4.0 audio speaker This speaker, fitted with TWS technology, also available as a twin set via pairing Bluetooth. Besides CMYK and LED logo printing on the front side, the four sides surfaces can be customized with a graphic design which covers both the curved surfaces and the buttons seamlessly.

Wheel Led Bluetooth

SP022

SIZE: Ø 8,0 × 3,5 cm
PRINT AREA: 5,0 × 2,3 cm
CUSTOMISATION: LED Logo

This Bluetooth speaker can be personalised with LED Logo, that is, the logo or applied graphics stand out thanks to the backlight that lights up when the speaker is in use. The surface of the body has a soft-touch rubberised effect, and the back houses a small foot that can be used to hold the speaker in the vertical position if required.

Card Speaker Bluetooth

SP020

Mini speaker with dimensions similar to those of a credit card, ultra-thin, lightweight and portable.

SIZE: 8,6 × 5,5 × 0,4 cm
PRINT AREA: 8,6 × 5,5 cm
CUSTOMISATION: Silk-screen Printing, UV Printing

Both sides of this product can be customised with a logo and graphics using serigraphy or four-color printing. Despite its very compact dimensions, the sound of this speaker is clear and powerful. There is also a practical hole to which you can attach a tie or other accessories rendering it the perfect gadget for travelling and outdoor activities.

Wonder Bluetooth TWS

SP021

3W Bluetooth speaker in a cube shape, made from plastic but also available with a metallic finish. The main characteristic of this speaker is its truly powerful and defined sound.

SIZE: 6,0 × 6,0 × 6,0 cm
PRINT AREA: 5,7 × 5,7 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

This product is available in a single version or in a double pack for use as a pair, thanks to the Bluetooth pairing function in stereo mode. 4.0 Bluetooth guarantees a range of 10 metres, and the integrated battery

– which can be recharged using a USB cable – guarantees 3 hours of continuous listening. The upper surface can be customised with logos and graphics using tampography and four color printing.

Totem Bluetooth TWS

SP018

SIZE: 10,0 × 6,2 × 4 cm
 PRINT AREA: 5,6 × 9,4 + 7,5 × 5,5 cm
 CUSTOMISATION: Custom 3D Tag, UV Printing, Silk-screen Printing, CMYK Printing

3W subwoofer Bluetooth speaker with ABS plastic shell and fabric-covered speaker. This model is designed for both single and paired use, thanks to the Bluetooth pairing function in stereo mode. The fabric surface can be customized both with UV printing or custom 3D label.

TWS

Aqua Bluetooth

SP009

SIZE: 9,15 × 8,45 × 5,3 cm
 PRINT AREA: 3,2 × 1,0 cm + 3,2 × 1,0 cm
 + 3,2 × 1,0 cm + 3,2 × 1,0 cm
 CUSTOMISATION: Pad Printing

Multi-functional Bluetooth Speaker; completely waterproof, equipped with a sucker to fix to any surface, be it horizontal or vertical. It can be used where proximity to water makes it impossible to use a normal speaker.

Cube Bluetooth

SP011

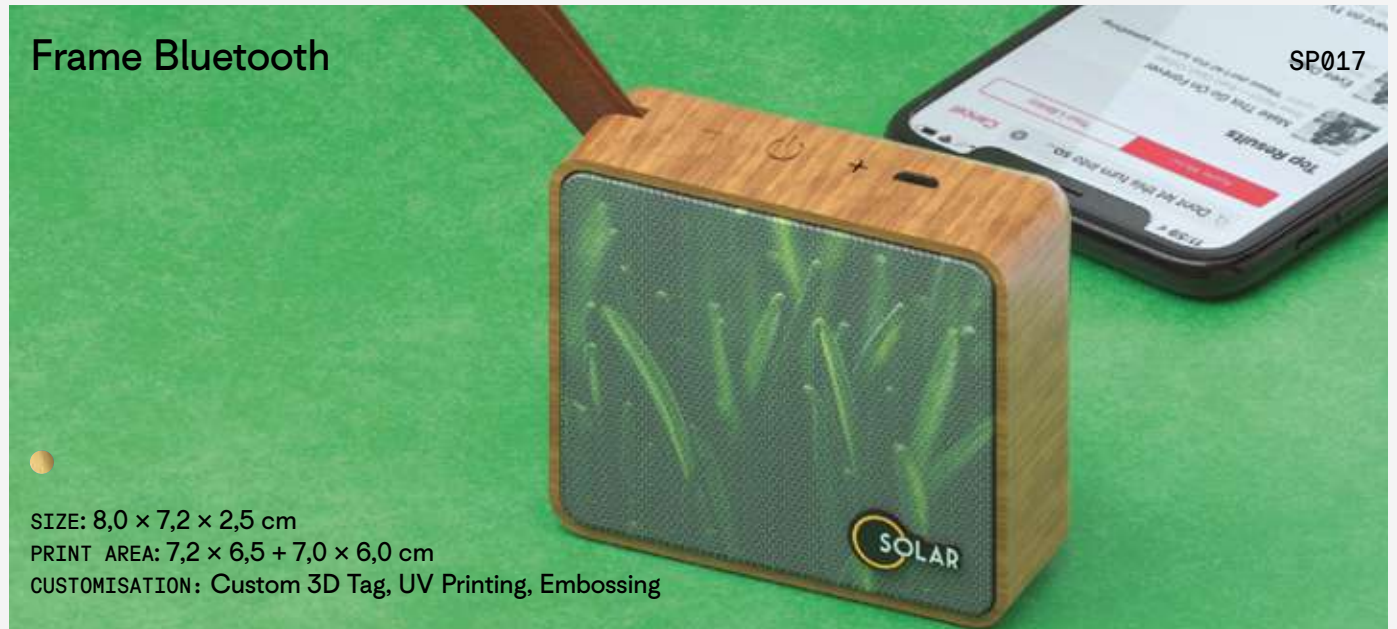

SIZE: 5,0 × 5,0 × 5,4 cm
 PRINT AREA: 4,8 × 3,2 + 4,8 × 3,2
 + 4,8 × 4,5 + 4,8 × 4,3 cm
 CUSTOMISATION: Silk-screen Printing, CMYK Printing

Portable plastic cube-shaped tiny Bluetooth speaker. The speaker, located on the top, propagates sound up to a 10 meter distance from the device it is connected to. It is possible to connect the speaker to the device via the 3.5mm jack (input on the back).

Frame Bluetooth

SP017

SIZE: 8,0 × 7,2 × 2,5 cm
 PRINT AREA: 7,2 × 6,5 + 7,0 × 6,0 cm
 CUSTOMISATION: Custom 3D Tag, UV Printing, Embossing

Square base Bluetooth speaker with beech shell, fabric-covered speaker and genuine leather strap. This model stands out from the others with a quality design including a shell made from a single piece of wood, and touch activated buttons thanks to capacitive sensors. The speaker covers a distance of about 10 meters from the device

it is connected to and can be customized in three ways: with laser engraving on the wood surface, with UV printing on the fabric surface (no color limit) and finally with a personalized 3D label based on your company logo applied to the fabric.

Touch Speaker Bluetooth

SP014

SIZE: Ø 9,2 × 12,0 cm
 PRINT AREA: Ø 6,5 + 2,0 × 6,0 + 2,5 × 5,0 + 2,0 × 1,8 cm
 CUSTOMISATION: Silk-screen Printing

Multi-function Bluetooth speaker fitted with a color LED lamp with brightness touch-controls. The cylindrical body is made of white plastic. The metal loudspeaker fitted on the top is available in 4 colors: pink, blue, black and white.

We live in a mobile oriented world.

Mobile Accessories

Choose among our wide range of mobile accessories to find the gift that matches perfectly with your clients needs. Discover our range including our USB multi-cables,

the magnetic supports for mobile phones, the best way to make your day more efficient and enjoyable.

3in1 Magnetic Cable

CB005

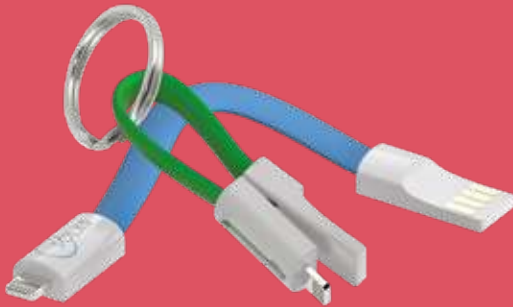

SIZE: 12,9 cm
PRINT AREA: $4,6 \times 0,4 + 1,4 \times 0,7 + 0,9 \times 0,7$ cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

USB cable with triple Micro, Lightning and Type C connector, suitable for both data transfer and for charging devices up to 2A. When the cable is not in use, the two ends remain firmly joined together by a magnet, and thanks to the metal loop this accessory can also turn into a practical keyring.

Both the silicone cable, which is available in various color variants, and the connectors can be customised with silk-screen printed company logo.

2in1 Magnetic Cable

CB004

SIZE: 11,0 cm
PRINT AREA: $4,6 \times 0,4 + 1,4 \times 0,7$ cm
CUSTOMISATION: Silk-screen Printing

USB cable with double Micro and Lightning connector, suitable for both data transfer and for charging devices up to 2A. When the two connectors at either end are not in use, they remain firmly joined together by a magnet, and thanks to the metal loop the cable can also turn into a practical keyring.

6in1 Magnetic Cable

CB008

SIZE: 12,9 cm
PRINT AREA: $4,64 \times 1,47 + 4,64 \times 1,47$ cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Thanks to the double Type C connector and the Lightning and Micro 2 in 1 connector, this multi-cable allows you to connect various devices, up to 6 combinations. When they are not in use, the outer connectors remain securely fastened with a magnet, so that the cable can be conveniently attached to ties or keyrings.

3in1 Lanyard Cable

CB009

SIZE: 92,5 cm
PRINT AREA: 86×2 cm
CUSTOMISATION: Hot Printing, Silk-screen Printing

The connectors are accommodated within a white plastic housing, which can be customised using serigraphy printing and equipped with a hook for the badge, which makes this accessory the perfect gadget for events and exhibitions. The fabric loop is available in various colors and can be customised with a company logo using hot printing.

2in1 Lanyard Cable

CB006

SIZE: 90,6 cm
PRINT AREA: $85,0 \times 0,7$ cm
CUSTOMISATION: Hot Printing

Fabric lanyard with double USB Micro and Lightning connector for charging devices up to 2A. The two connectors are housed within a plastic snap hook, which also features a badge hook, making this the ideal gadget for events and trade fairs. The fabric lanyard can be customised with company logo using hot stamping.

4in1 LED Multicable

CB007

SIZE: $15 \times 3,3$ cm
PRINT AREA: $\varnothing 2,5$ cm
CUSTOMISATION: Silk-screen Printing, LED Logo

Multi connector equipped with standard USB cable, micro USB cable, Lightning cable and Type C cable, all with 2A capacity and which can be used to charge smartphones or other devices. The hub from which the four cables emerge, which is black in color, can be customised with an LED logo which switches on when cables are linked to a device.

Layer Multicable

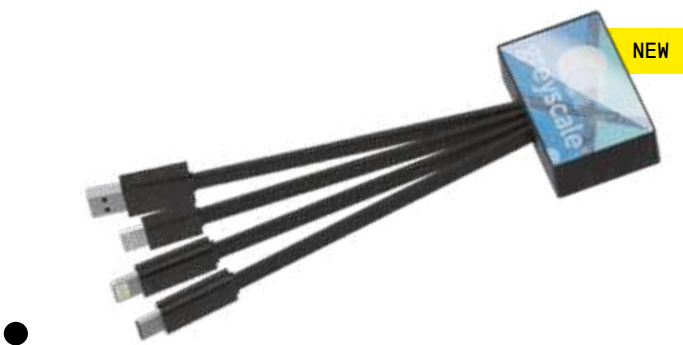

CB010

SIZE: $5,3 \times 5,3 \times 1,2$ cm — lenght 180mm
PRINT AREA: $5 \times 3,9$ cm
CUSTOMISATION: Silk-screen Printing, LED Logo, CMYK Printing

Multi-cable with four cables: standard USB, micro USB, Lightning and Type C, all with charging features for smartphones or other devices. The cable exit port is available in any Pantone color starting from 100 pieces. It is customizable using CMYK printing or with LED logo technology.

Poker Glass Multicable 4in1 CB012

●
SIZE: 4,0 × 2,6 × 1,3 cm - Lenght 12 cm
PRINT AREA: 3,8 × 2,3 cm
CUSTOMISATION: CMYK Printing, Glitter print

Multiple connector equipped with four cables: standard USB, micro USB, Lightning and Type C, all with charging features for smartphones or other devices. It's very useful when you need to connect several smartphone models to the same Power Bank, iOS or Android. The top surface is customisable in CMYR printing on tempered glass.

Poker LED Multicable 4in1 CB013

●
SIZE: 4,0 × 2,6 × 1,3 cm - Lenght 12 cm
PRINT AREA: 3,8 × 2,3 cm
CUSTOMISATION: CMYK Printing, LED Logo, Silk-screen Printing

Multiple connector equipped with four cables: standard USB, micro USB, Lightning and Type C, all with charging features for smartphones or other devices. It's very useful when you need to connect several smartphone models to the same Power Bank, iOS or Android. The top surface is customisable in printing combined with the coloured LED light.

Braided cable CB011

● ● ●
SIZE: 120 cm
PRINT AREA: 1,5 × 0,4 + 22 × 8 cm
CUSTOMISATION: Laser Laser Engraving

A 120 cm USB cable with a multiple micro-USB connector, Lightning and Type C, with 2A capacity and useful for charging smartphones and other devices. The cables are covered by a twisted nylon fibre fabric available in black, white, red and gold. The nylon drawstring makes the cable strong and resistant to rupture and, even though extremely flexible, it has an anti-tangle effect because it prevents knots from forming.

Yoyo Cable CB014

● ● ●
SIZE: Ø 4,6 cm
PRINT AREA: Ø 4,6 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

USB cable with a foldaway retractable mechanism; this USB can both charge and transfer data. On the one end, there's a standard USB connector; on the other, there's a 3in1 connector which includes port for Type C and double port micro and Lightning. Two cables are folded in the round body; when pulled out, they extend up to 120 cm.

Hub ED001

○ ●
SIZE: 7,0 × 3,3 × 1,0 cm
PRINT AREA: 7,0 × 3,3 cm
CUSTOMISATION: Silk-screen Printing, UV Printing

A USB hub allows you to multiply the number of USB ports available on a PC or Mac. Despite its very compact dimensions, this product provides 4 additional USB ports. It connects to the device via a standard USB connector and is compatible with all operating systems. It can be customised on both sides.

Globe Trotter

TA001

PMS

SIZE: 6,1 × 4,5 × 5,6 cm

PRINT AREA: 6,0 × 3,1 cm

CUSTOMISATION: Silk-screen Printing

Universal travel adaptor which provides one solution for European, English, Australian and American plugs and can be used in over 150 countries. The Globe Trotter adaptor is cube-shaped, small and light. The prongs are all inside the shell of the adaptor and can be selected by using a pressure-scroll button. A luminous LED lights up when the adaptor is plugged in and in use. It also includes two USB ports to charge devices. The Globe Trotter adaptor is available in white and is customizable with printed logos and images.

Travel Pack Small

TA003

PMS

SIZE: 5,0 × 5,0 × 4,0 cm

PRINT AREA: 2,7 × 1,8 cm

CUSTOMISATION: Silk-screen Printing, CMYK Printing

The Travel Pack Small adaptor - a four-in-one universal travel adaptor suitable for European, English, Australian and American sockets. Travel Pack Small is a single, compact light product which can be divided into 2 parts assembled through a slot-in system. It is available in black and white and is customisable with printed logos and images.

Travel Pack

TA002

PMS

SIZE: 8,0 × 5,0 × 4,0 cm

PRINT AREA: 2,7 × 1,8 cm

CUSTOMISATION: Silk-screen Printing, CMYK Printing

The Travel Pack adaptor - a four-in-one universal travel adaptor that contains the European, English, Australian and American plugs and a USB port to charge devices. The Travel Pack adaptor is a single product made up of different parts that slot into one another and can be pulled out based on need.

Energy Tower

TA007

SIZE: 7,9 × 11,0 × 6,5 cm

PRINT AREA: 4,7 × 2,1 + 4,7 × 2,1 cm

CUSTOMISATION: Silk-screen Printing, CMYK Printing

Charging station with 5 USB ports to simultaneously charge multiple devices thanks to its 20 WATT power and a total output of 4A. Each port has a 4 Watt power and a 5V output. The feed cable is 150cm long, enabling you to position the USB hub in the most convenient position, even if very far from the wall cable.

Multiplug

TA006

SIZE: 10,1 × 4,2 × 2,7 cm

PRINT AREA: 5,5 × 3,5 cm

CUSTOMISATION: Silk-screen Printing, CMYK Printing

Wall charger with a 240 V 8A European plug. It has 3 USB entry ports, two of which are 4.8A and one is designed for quick charge (Quick Charge 3.0). Multiplug is compatible with all devices equipped with a USB port, such as smartphones, laptops, digital cameras, Power Banks, etc.

USB Plug

TA004

PMS

SIZE: 6,7 × 3,5 × 1,4 cm

PRINT AREA: 4,7 × 2,1 + 4,7 × 2,1 cm

CUSTOMISATION: Silk-screen Printing, CMYK Printing

USB wall feed with a 220V Italian socket, compatible with all portable USB devices such as smartphones, digital cameras, MP3 players and similar devices. It is light and compact, ideal to use when travelling and essential when a USB port is not available. It has a slightly elongated rectangular shape and prism-shaped edges.

Swipe

GD023

NEW

SIZE: 3,0 × 3,0 | 5,0 × 3,5 cm
PRINT AREA: 3,0 × 3,0 | 5,0 × 3,5 cm
CUSTOMISATION: CMYK printing

Microfibre cloth with an adhesive base to stick to the back of your smartphone when you need to free your screen of dust and fingerprints. The anti-scratch cloth can be square or rectangle shaped. It can be used multiple times because the sticker has been designed to be stuck on and taken off repeatedly without losing its adhesiveness.

Slide Holder Small

GD009

SIZE: 7,0 × 2,2 cm
PRINT AREA: 1,8 × 3,0 cm
CUSTOMISATION: Pad Printing 1 color, Pad Printing 2 colors

The Small Slide Holder is a practical smartphone holder for use in the car. It works like a small extendable vice and therefore holds devices of any size. Inside it has anti-scratch silicone pads that guarantee a secure grip.

Magneto Holder Square

GD007

SIZE: 3,2 × 3,2 cm
PRINT AREA: 2,3 × 2,3 cm
CUSTOMISATION: Pad Printing 1 color, Pad Printing 2 colors, Laser Engraving on magnet

The Square Magneto Square is a magnetic car phone holder compatible with all smartphones. It works by applying the metal adhesive plate to the back of the phone or to the cover. The magnet holds it firmly in place on the square base support, which in turn has a

universal rubber hook on the back that attaches to the car's air vents. The Square Magneto Holder allows you to position your phone at any angle, totally safely. The round plastic surface can be customised with silk-screened logos.

Magneto Holder Round

GD006

SIZE: Ø 3,3 cm
PRINT AREA: Ø 2,3 cm
CUSTOMISATION: Pad Printing 1 color, Laser Engraving on magnet

The Round Magneto Holder is a magnetic car phone holder compatible with all smartphones. It works by applying the metal adhesive plate to the back of the phone or to the cover. The magnet holds it firmly in place on the round base support.

Magneto Holder Rectangle

GD008

SIZE: 4 × 5 cm
PRINT AREA: 2,6 × 3,5 cm
CUSTOMISATION: Pad Printing 1 color, Pad Printing 2 colors, Laser Engraving on magnet

The Rectangle Magneto Holder is a magnetic car phone holder compatible with all smartphones. It works by applying the metal adhesive plate to the back of the phone or to the cover. The Rectangle Magneto Holder allows you to position your phone at any angle, safely.

NEW

←GRAVITY HOLDER — This is a smartphone support for cars which connects to the air vents and enables you to interact with your smartphone (e.g. to follow the instructions of the navigation device or make calls on loud speaker or via Bluetooth) without interfering with your driving. A ball pin allows you to angle your phone safely in any direction.

↑WIRELESS GRAVITY HOLDER — It is a smartphone support for cars equipped with wireless charging technology. It can be attached to the air vents thanks to a hook on the back. A ball pin allows you to angle your phone safely in any direction. Phones that are compatible with the wireless charger can be charged while driving while the phone is attached to the support.

PMS
| |

SIZE: 10,5 × 9,6 × 5,0 cm
PRINT AREA: 9 × 5 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, LED Logo (Wireless charger version only)

Stand-Up Phone

GD011

PMS
| | | | |

SIZE: 11,5 × 3,2 × 0,8 cm
PRINT AREA: 1,5 × 5,5 + 1,5 × 5,5 cm
CUSTOMISATION: Silk-screen Printing

Stand-Up Phone is a desktop stand for smartphones and tablets to keep your devices in a vertical or horizontal position for a practical view of the screen, to watch videos, surf the net while at the same time keeping your hands free. When not in use, the stand can be folded up into a compact and slimline gadget which is ideal for travelling.

Caddy Card Holder

GD016

| | |

SIZE: 9,5 × 6,5 × 0,8 cm
PRINT AREA: 9 × 5,5 cm
CUSTOMISATION: Laser engrave

Cardholder, up to six cards, with RFID lock that ensures electronic card data theft and completely isolates the cards from any magnetic sources. The satin-finish aluminum shell, available in black, silver and red, also protects cards from physical impacts and damage. The lever/latch mechanism quickly releases the cards from the holder, displaying them in a way which is easy to recognize and extract them.

Wallet Up-Phone

GD014

SIZE: 9,6 × 5,6 × 0,25 cm
PRINT AREA: 6,0 × 1,0 cm
CUSTOMISATION: Pad Printing

When you want to use the support function, just press lightly in the centre, and the bar rolls up like a snap bracelet. To close it, just bring down the two ends, and fix them to the base. Wallet Up-Phone is a multi-function gadget which is perfect as a useful and original promotional giveaway.

Mouse Click

M0001

SIZE: 10,2 × 5,8 × 1,4 cm
PRINT AREA: 10,2 × 5,8 cm
CUSTOMISATION: Silk-screen Printing, CMYK printing

Cordless mouse with wireless receiver to connect to the USB port of a PC. Its rectangular and completely flat surface provides a wide printing area that can be personalized with company logo or graphics via silk-screen printing or CMYK printing.

Phone Ring

GD013

SIZE: 4,0 × 3,5 cm
PRINT AREA: 2,8 × 0,5 cm
CUSTOMISATION: Silk-screen Printing

Smartphone support for attaching to the back of a phone, featuring an adhesive surface on which a metal ring is hooked to help steadily and comfortably hold the device. It supports the smartphone in a horizontal or vertical position for watching videos or making video calls, and can be used as a cable reel for headphones.

Phone Catch

GD017

SIZE: Ø 3,5 cm
PRINT AREA: Ø 2,3 cm
CUSTOMISATION: Laser Engraving

Smartphone support to attach to the back of the phone or the cover, equipped with a metal ring which ensures a safe grip for making phonecalls and taking pictures. Phone Catch holds the smartphone vertically and can also be used as a cable winder for earphones.

Air Drive

AD002

SIZE: 6,0 × 6,0 × 1,0 cm
PRINT AREA: 6,0 × 6,0 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Mini portable hard disk available in five memory sizes from 32GB to 128GB, and capable of exchanging files with a smartphone without the need for wires, using Wi-Fi technology and an app. Compatible with all operating systems, this Wi-Fi disk allows you to save images and videos in a practical and fast way, freeing up memory

on your smartphone, supporting up to 6 connections simultaneously for the sharing of files, and 3 connections for the simultaneous reproduction of video. It is equipped with an integrated 1400mAh battery. The square plastic housing can be customised with a company logo using serigraphy or four color printing.

Tracker Bluetooth Square

KF002

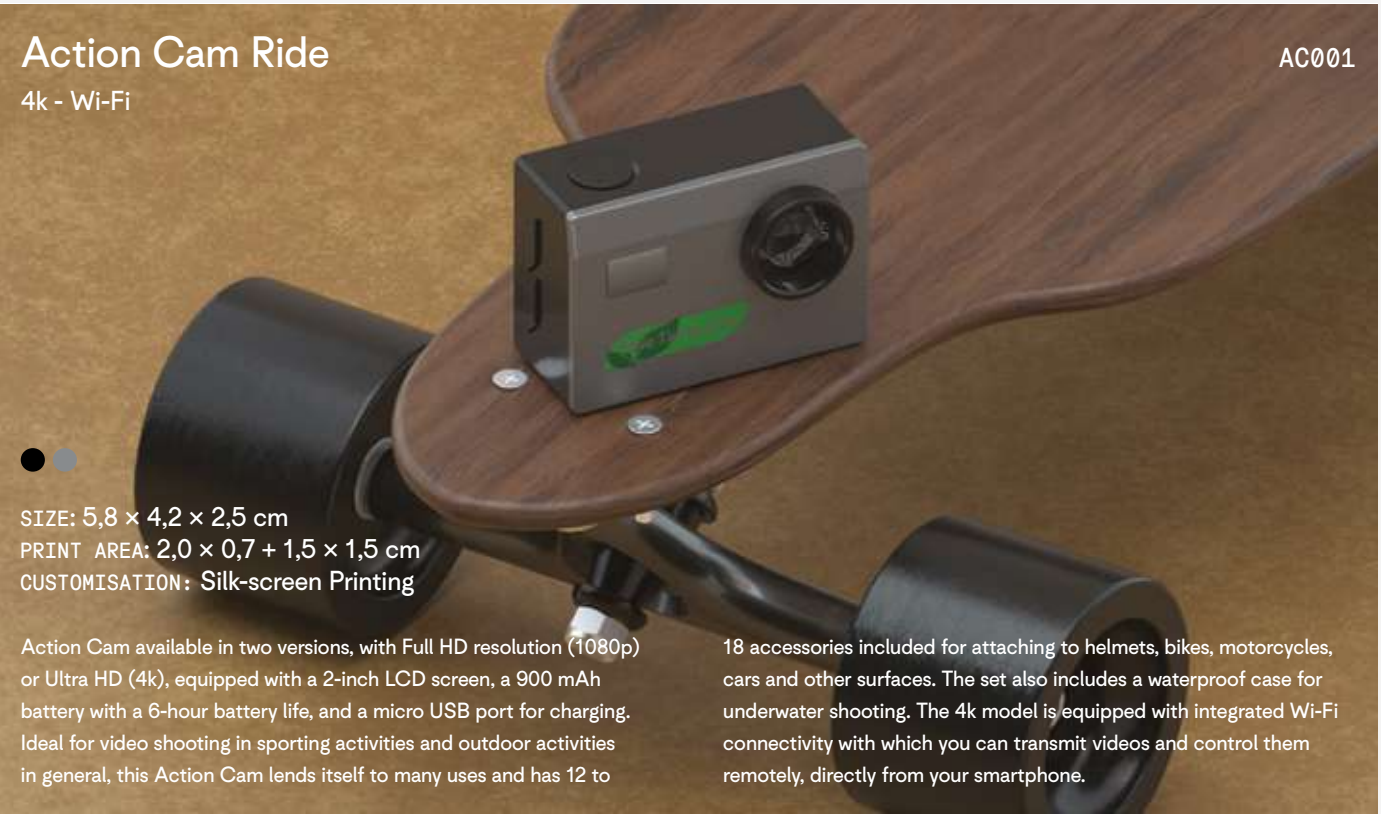

SIZE: 3,8 × 3,8 × 0,9 cm
PRINT AREA: 2,5 × 1,5 cm + 2,5 × 0,5 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Tracker Bluetooth Square is a small Bluetooth tracker. When connected to your smartphone via the JustFoundIt App, the tracker lets you identify the position of the item to which it is attached (e.g. keys), take pictures with your smartphone via remote control, and locate the phone on which the App has been downloaded.

Action Cam Ride

4k - Wi-Fi

AC001

SIZE: 5,8 × 4,2 × 2,5 cm
PRINT AREA: 2,0 × 0,7 + 1,5 × 1,5 cm
CUSTOMISATION: Silk-screen Printing

Action Cam available in two versions, with Full HD resolution (1080p) or Ultra HD (4k), equipped with a 2-inch LCD screen, a 900 mAh battery with a 6-hour battery life, and a micro USB port for charging. Ideal for video shooting in sporting activities and outdoor activities in general, this Action Cam lends itself to many uses and has 12 to

18 accessories included for attaching to helmets, bikes, motorcycles, cars and other surfaces. The set also includes a waterproof case for underwater shooting. The 4k model is equipped with integrated Wi-Fi connectivity with which you can transmit videos and control them remotely, directly from your smartphone.

Webcam Cover

GD012

Plastic adhesive cover with sliding opening and closing system to be attached over the webcam of computer, tablet or smartphone with the purpose of preventing any virus or hacker from using the device's video camera. The slide lock allows you to cover the video camera when it's not in use, and use it when required by sliding the flap.

PRINT AREA: 0,6 × 1,2 cm
CUSTOMISATION: Laser Engraving

The Runner smartband is the perfect support for all sports enthusiasts, an indispensable tool to track your every move. Designed to monitor everyday activities, it features functions such as steps taken, distance covered, calorie count, alarm clock and sleep counter. The functions are selected using a button on the side and signalled by a vibrating alert.

57

Practical, handy, useful.

USB Flash Drives

USB Flash drives provide a convenient solution for storing, transferring and saving digital data in a totally secure way. Let your logo be relevant, promote your brand with an essential and useful product.

Our capacity range goes from 512 MB to 64 GB.

Are you looking for better performances? Then try the 3.0 USB technology: 10 times faster than the standard USB.

Flow

USB_0003

SIZE: 5,6 × 2,1 × 1,0 cm
PRINT AREA: 2,9 × 1,4 cm + 2,9 × 1,4 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

USB flash-drive in rubberised look plastic, rectangular shaped with an asymmetrical side with a diagonal profile. This model stands out from more classic USB flash-drives for its retractable body which allows the chip to be housed inside and to come out for use without the need for a cap.

Duo

USB_0004

SIZE: 4,6 × 1,8 × 1,0 cm
PRINT AREA: 2,2 × 1,2 cm + 2,2 × 1,2 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

USB flash-drive with wooden body and silver colored satin finish metal-look plastic cap.. The body is available in walnut, maple and bamboo and it can be customised on both sides using silk-screen printing or in relief.

Private Key

USB_0006

SIZE: 5,8 × 3,1 cm
PRINT AREA: 3,0 × 2,0 cm + 4,7 × 2,0 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Metal USB flash-drive similar to a traditional door key and distinguished by a trapezium-shaped end. This model is available in four finishes: gold, silver, copper and gun-barrel. The surface can be customised on both sides using silk-screen printing or laser engraving

Flag

USB_0001

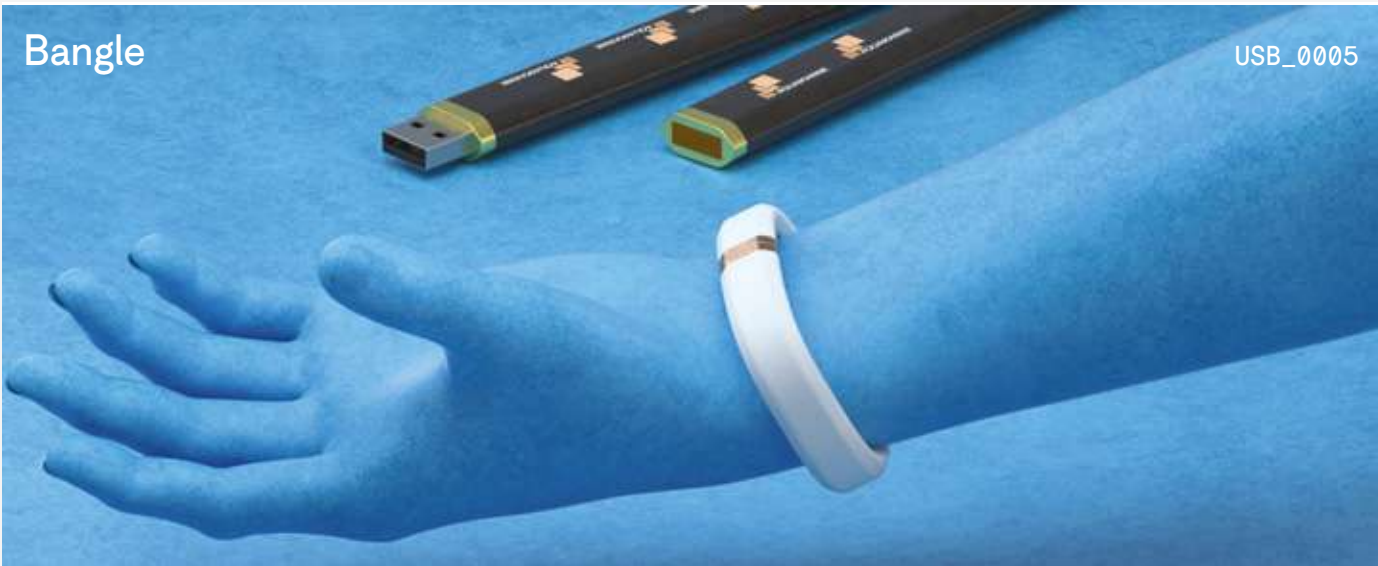

SIZE: 3,7 × 1,9 × 0,5 cm
PRINT AREA: 1,3 × 1,1 cm + 1,6 × 1,1 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Ultra compact and ultra-slim USB flash-drive made in rubberised look plastic. This USB flash-drive is strikingly simple because it does not have a cap and the chip is built into the body. The shape recalls that of a small trapezium and there is a hole in the protruding corner for threading cords and accessories.

Bangle

USB_0005

SIZE: 1,9 × 23,5 × 0,9 cm
PRINT AREA: 0,9 × 15 cm
CUSTOMISATION: Silk-screen Printing, Embossing

This USB flash-drive comes in the original shape of a soft rubber bracelet. The connector is hidden in the magnetic clasp, a feature which teams the USB memory with the distinguishing trait of being an accessory you can wear.

Skim

SIZE: 5,4 × 1,9 × 0,3 cm
PRINT AREA: 3,0 × 1,6 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Ultra-slim USB flash-drive in rubberised look plastic, rectangular shaped and compact size. The distinguishing features of this model are its retractable mechanism, which allows the chip to be housed in the body without the need for a cap, along with latest-generation Chip on Board technology.

Tie

USB_0009

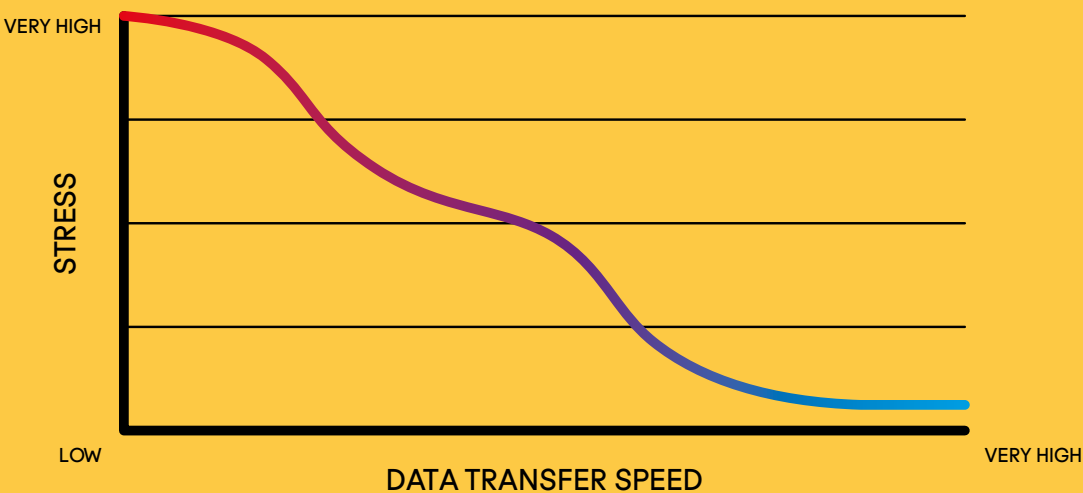

2.0/3.0

SIZE: 7,7 × 2,0 × 0,5 cm
PRINT AREA: 3,6 × 0,9 cm + 3,0 × 0,9 cm
CUSTOMISATION: Laser Engraving, Black Laser

Metal USB flash-drive with a striking yet simple, slim-line design. The memory chip is housed within the body, and there is silicone loop at the other end to which a small keyring is attached, which is useful for threading cords and accessories. This USB flash-drive is available in silver, and the metal body can be customized using laser engraving.

Why should I choose a USB 3.0?

Have you ever had to deal with speed-related issues when using a USB interface? A low read and write speed can really test our patience. This probably happens because you didn't know that there is a valid alternative, and it's called USB 3.0.

USB 3.0 technology has revolutionized the external memory drive market, as it provides great advantages in terms of performance.

What advantages?

— Data transfer speed.

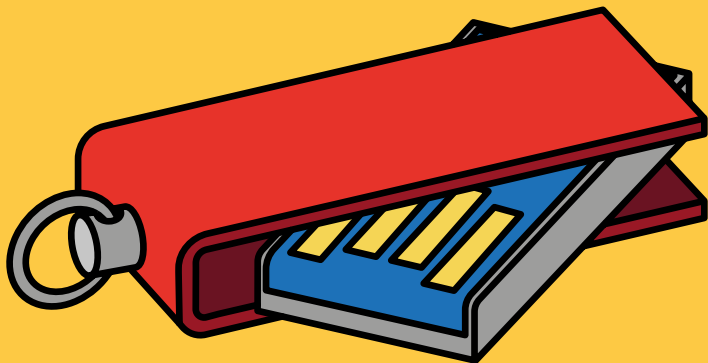

This is the main advantage: in terms of numbers, we're talking about a speed that is ten times faster than USB 2.0 technology. However, it must be noted that such speeds can only be reached if the USB port being used supports this technology.

— Compatibility.

Cables and flash-drives that use 3.0 technology are backwards compatible, which means that they can easily be used with USB ports that have 2.0 technology.

Aesthetically, there is a way to distinguish between a 3.0 and a 2.0 port or connector. The contacts base on the inside is blue, whereas for the latter it is white.

Search in our catalogue for USB flash-drives with 3.0 technology, look for the 2.0/3.0↔ mark and find all the models available!

Bullet

USB_0007

2.0/3.0↔

SIZE: 3,9 × 1,2 × 0,5 cm
PRINT AREA: 2,6 × 1,0 cm + 2,6 × 1,0 cm
CUSTOMISATION: Laser Engraving, Black Laser

USB flash-drive in matt finish metal, available in gold or silver color. The memory chip is housed inside the body at one end, whereas at the other end there is a large functional round hole for threading lanyards and accessories. It is equipped with a removable cap, a flashing LED indicating operation, and a small functional ring to apply straps and accessories.

2.0/3.0↔

What is OTG technology?

USB On-The-Go (OTG) is a standardized specification for USB connections that allows a device to read data from a USB connection without requiring a PC.

Our USB flash-drive with On-The-Go technology is equipped with a standard USB connector on one side and a micro-USB connector on the other. This means you can connect your USB flash-drive directly to a smartphone or digital camera or any other device without any wires or cables, to read and transfer your data quickly and immediately.

The USB flash-drive OTG is compatible with Android operating system.

Widget OTG

USB_0014

SIZE: 6,3 × 1,9 × 0,9 cm
PRINT AREA: 3,2 × 1,0 cm + 3,2 × 1,0 cm
CUSTOMISATION: Laser Engraving

Aluminium USB stick with On-The-Go (OTG) technology equipped with a micro-connector and lightning to connect it directly to smartphones tablets and cameras in order to read and transfer data quickly and immediately. Thanks to a rotating mechanism, the central part of the key can be oriented to always show one end or the other.

Twister OTG

USB_1117

SIZE: 6,8 × 1,9 × 1,0 cm

CUSTOMISATION: Internal laser Engraving,
Laser Engraving, Silk-screen Printing

Plastic and metal USB flash-drive with round body and red LED that lights up during use. The connector is situated on the outer edge of the plastic body and when not in use, it can be housed inside the metal cap.

Bend

USB_0008

2.0/3.0

SIZE: 4,9 × 2,2 × 0,5 cm
PRINT AREA: 2,1 × 1,1 cm + 2,1 × 1,1 cm
CUSTOMISATION: Laser Engraving

Metal USB flash-drive available in silver. The memory chip is housed within the body, whereas at the other end there is a large functional round hole for threading cords and accessories. This USB flash-drive is extremely compact in size, with a striking yet simple style. The body can be customized using laser engraving.

Razor Wood

USB_6102

SIZE: 3,7 × 1,7 × 0,5 cm
PRINT AREA: 2,6 × 1,2 cm + 2,6 × 1,0 cm
CUSTOMISATION: Silk-screen Printing, Embossing

Wooden USB flash-drive with a rectangular shape and extremely compact in size, available in three types of material: Bamboo, Walnut and Maple. Inspired by the rotating motion of traditional razors, it features a swivel-opening mechanism to expose the connector, making it extremely practical to use.

FlashKey Square

USB_3001

SIZE: 5,6 × 2,4 × 0,2 cm
PRINT AREA: 4,0 × 0,8 cm + 4,0 × 0,8 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

Metal key-shaped USB flash-drive with a square end. This flash-drive has a clean design and is ultra slim as a result of the latest generation COB chip. It is equipped with a functional slot to apply straps and accessories, and is ideal to hook onto key chains. It can be customised on both sides with silk-screen printing or laser engraving.

Paper Drive

USB_6095

2.0/3.0

SIZE: 6,0 × 2,8 × 0,9 cm
PRINT AREA: 3,2 × 2,0 cm + 3,2 × 2,0 cm
CUSTOMISATION: Silk-screen Printing

Standard size, square profile USB flash-drive made from recycled cardboard. The ecological style and essential lines make it the ideal gadget to promote environmental sustainability or paper industry products. It can be customised on both sides with silk-screen printing.

Limb

USB_6104

SIZE: 6,1 × 2,3 × 1,0 cm
PRINT AREA: 3,3 × 1,3 cm + 3,3 × 1,3 cm
CUSTOMISATION: Silk-screen Printing, Embossing

USB flash-drive that combines technology with the warm characteristics of wood. It has a standard oval shape and is equipped with a magnetic closing cap. It is available in three models: Bamboo, Walnut and Maple. It can be customised on both sides with silk-screen printing or resin relief.

Tock

USB_6100

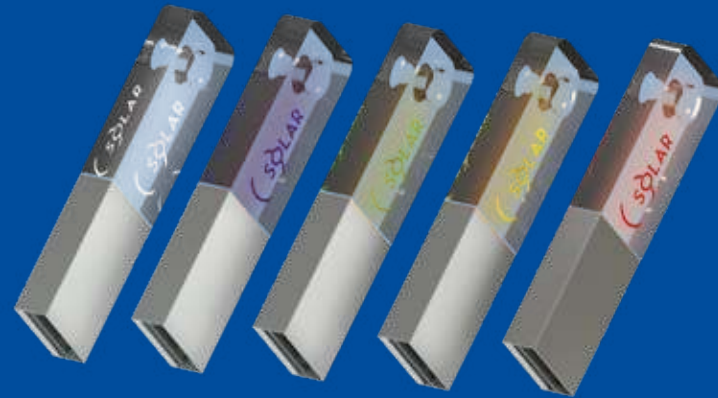

SIZE: 6,0 × 1,8 × 0,9 cm
PRINT AREA: 3,8 × 1,4 cm + 3,8 × 1,4 cm
CUSTOMISATION: Silk-screen Printing, Embossing

Wooden USB flash-drive available in three models: Bamboo, Walnut and Maple. It has a standard square shape and is equipped with a removable cap with a magnetic closing system. Its essential design gives the flash-drive a minimalist style, which is however softened by the wood.

Barracuda

USB_2010

BODY:  LIGHT:     

SIZE: 4,5 × 1,2 × 0,5 cm
PRINT AREA: 1,8 × 1,0 cm + 1,8 × 1,0 cm
CUSTOMISATION: Laser Engraving, Internal laser Engraving

USB flash-drive in transparent plastic and metal with a modern and essential design. It is equipped with a functional hole for the passage of laces or accessories. Inside the plexi section there is a red LED that lights up when the key is connected to the computer, enhancing the logo on the surface or inside the plexiglass. Barracuda is in fact customizable through three-dimensional laser engraving in the plexi part, and with laser engraving on the metal surface.

Barracuda Color

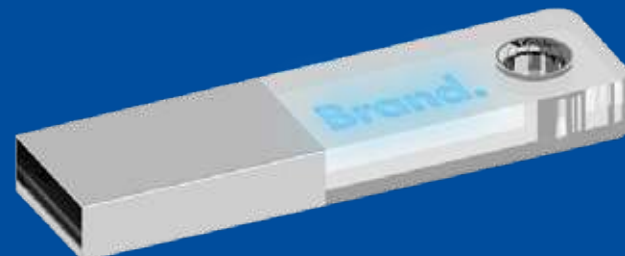

USB_0013

BODY:     LIGHT: 

SIZE: 4,5 × 1,2 × 0,5 cm
PRINT AREA: 1,8 × 1,0 cm + 1,8 × 1,0 cm
CUSTOMISATION: Laser Engraving, Internal laser Engraving

This USB stick features a minimalist and elegant design, and can be customised in a highly original way: the plexi part, available in five shades, allows for three-dimensional laser engraving, a printing technique where the logo is engraved with a permanent result, and is not subject to wear and tear, enhanced by the effect of the LED lighting. The metal surface can also be customised with a printed logo using laser engraving. Barracuda Color is also equipped with a practical hole, for attaching a tie or other accessories.

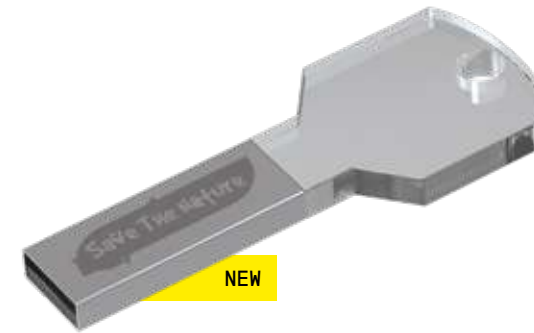

Internal laser engraving

 Plastic / Aluminium body

 LED light

Plexy USB

USB_0015

 2.0/3.0 

SIZE: 6,0 × 2,4 × 1,0 cm
PRINT AREA: 1,2 × 1,0 cm + 1,2 × 1,0 cm
CUSTOMISATION: Silk-screen Printing

USB flash drive in metal and plexiglass with a slim design and squared edges. . The part made of plexiglass looks like a traditional key with a hole for chains or laces. It can be customised with internal laser incision, a technique which allows you to recreate logos and images inside the transparent plastic, making it impossible to scratch.

Light-Up

USB_0017

 2.0/3.0 

SIZE: 5,4 × 2,0 × 2,0 cm
PRINT AREA: 3,5 × 1,0 cm
CUSTOMISATION: LED Logo

USB with an unusual cylindrical shape and black body which features a soft rubber finishing and is pleasant to the touch. It is customisable with LED print, a technique which highlights the logo thanks to body-incorporated LED that lights up when the key is slotted into the computer. The LED light is available in five colours.

Pod

USB_1150

PMS 

SIZE: 6,0 × 2,4 × 1,0 cm
PRINT AREA: 1,2 × 1,0 cm + 1,2 × 1,0 cm
CUSTOMISATION: Silk-screen Printing

Plastic USB flash-drive available in a satin or rubber version. The body has round edges and surfaces. The edge of the removable cap has a line that contrasts the centre of the body. The end has a functional hook to apply straps and accessories. It can be customised on both sides with silk-screen printing.

Silik

USB_6050

PMS 

SIZE: 21,5 × 1,8 × 1,8 cm
PRINT AREA: 2,2 × 1,3 cm + 16,0 × 1,3 cm
+ 1,0 × 1,3 cm + 16,0 × 1,3 cm
CUSTOMISATION: Silk-screen Printing, Embossing

Silicone USB flash-drive accessory as a result of its dual function of bracelet and USB memory. The connector is concealed in the cap closure. Silik is slim and rectangular and can be customised on its entire length on both sides with silk-screen printing or resin relief.

Color Card

USB_4015

SIZE: 8,3 × 5,2 × 0,2 cm
PRINT AREA: 8,3 × 5,2 cm + 8,3 × 5,2 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, 3D Printing

Ultra slim smooth plastic USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

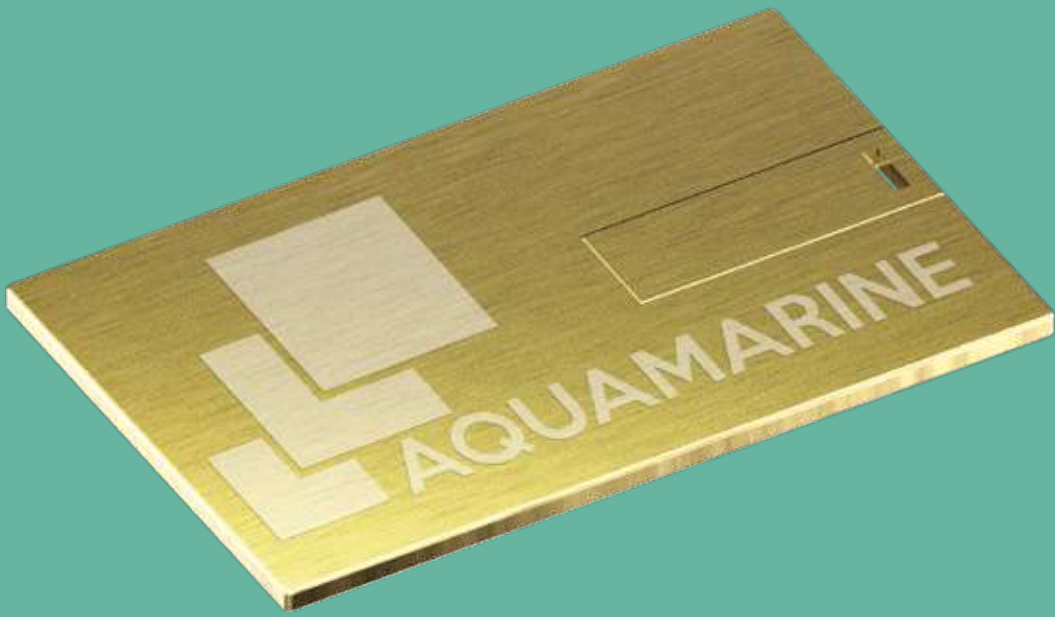

2.0/3.0

Metal Card

USB_0012

"It is the product that has the largest print area, and is perfectly suited for graphic customisation. It can be customised on both sides."

SIZE: 8,7 × 5,5 × 0,2 cm
PRINT AREA: 8,0 × 5,0 cm + 8,0 × 5,0 cm
CUSTOMISATION: Silk-screen Printing, Laser Engraving

This product is also available in a 3.0 version, with data transfer technology that is up to 5 times faster than normal USB. Thanks to its large printing surface, Metal Card gives excellent results when customised with logos and graphics, which can be created on both sides using serigraphy printing or laser engraving.

2.0/3.0

Color Card Small

USB_4017

SIZE: 6,0 × 3,0 × 0,2 cm
PRINT AREA: 6,0 × 3,0 cm + 6,0 × 3,0 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing, 3D Printing

Ultra slim smooth plastic USB flash-drive. Given its shape of a credit card, it is extremely practical to carry around. It is made of plastic and equipped with a connector that comes out from the side, which can be removed to facilitate use.

Color Card Round

USB_4016

2.0/3.0

SIZE: Ø 4,6 × 0,2 cm
PRINT AREA: Ø 4,6 cm + Ø 4,6 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Plastic, round USB flash-drive that is ultra slim and small as a result of the latest generation COB chip. It is equipped with a connector that comes out from the side, and can be removed from the rest of the body to facilitate use. It can be customised on both sides with silk-screen or CMYK printing.

Pen Pad

USB_9106

SIZE: 13,8 × 1,4 × 1,4 cm
PRINT AREA: 3,0 × 0,5 cm + 3,0 × 0,5 cm + 3,0 × 0,5 cm + 3,0 × 0,5 cm
CUSTOMISATION: Silk-screen Printing

A smooth plastic USB flash-drive in the shape of a multi-functional pen: memory, pen and high-precision pen-nib for touch screen devices due to its rubber tip. Its compact size and innovative design distinguish it from other pens with USB flash-drives currently on the market.

Minimal

USB_5070

SIZE: 4,7 × 1,1 × 0,3 cm
PRINT AREA: 4,0 × 0,9 cm + 4,0 × 1,2 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Super slim, plastic USB flash-drive. The connector is released by means of a sliding mechanism. This makes the flash-drive extremely compact and slim when closed. There is a small functional slot at the end to apply straps and accessories. It can be customised on both sides with silk-screen or CMYK printing.

Penny

USB_0016

SIZE: 14,3 × 1,4 cm
PRINT AREA: 3,8 × 1,0 cm
CUSTOMISATION: Silk-screen Printing

Ballpoint black ink pin with a touchscreen pad and a USB chip incorporated in the cap. This multi-functional product is a perfect business gift as it combines three functions that we perform in our offices on a daily basis: writing on paper, archiving files on memory chips, tapping on tablet or work tool touchpads.

Squeeze

USB_9104

SIZE: 5,3 × 1,8 × 1,1 cm
PRINT AREA: 2,8 × 1,3 cm + 2,8 × 1,3 cm
CUSTOMISATION: Silk-screen Printing

PVC USB flash-drive equipped with an original connector cap in pleated rubber with a pressure insertion system. The soft surface protects it against impacts and gives the flash-drive a pleasant touch. Squeeze is a model designed and manufactured exclusively by us. It can be customised on both sides with silk-screen printing.

Stiff

USB_1051

2.0/3.0

SIZE: 7,4 × 2,0 × 0,8 cm
PRINT AREA: 3,2 × 1,1 cm + 3,6 × 1,1 cm
CUSTOMISATION: Silk-screen Printing, CMYK Printing

Plastic USB flash-drive available in a smooth or rubber version. Standard rectangular shape, it is equipped with a removable cap and hook at the end to apply straps and accessories. It can be customised on both sides with silk-screen and CMYK printing.

Original travel-sized gift sets.

Gift Sets

We've taken from our catalogue some staple accessories to create three selected assortments of indispensable tech products.

Surprise your clients with these original promotional gifts, perfect either for work, travel or leisure.

Recharge Set Glass

KT004

SIZE (PACKAGING): 21,0 × 15,0 × 3,5 cm
CUSTOMIZATION (PACKAGING): Silk-screen Printing
PRODUCTS CUSTOMIZATION: CMYK Printing, Glitter print

This set is made up of three essential items for charging any kind of smartphone, including ones which feature wireless charging. The set includes the Power Shield power bank, the Ray Glass wireless charger and the Poker 4in1 multi-cable. These products are already available in our catalogue and have been purposefully chosen for this set.

Privacy Set

KT006

SIZE (PACKAGING): 12,0 × 12,5 × 3,0 cm
CUSTOMIZATION (PACKAGING): Silk-screen Printing
CUSTOMIZATION (PRODUCTS): Silk-screen Printing, CMYK Printing

A set of products dedicated to protecting digital data and the IT safety of smartphones, tablets and computers. It features a USB data blocker; an anti-RFID card and 5 webcam covers. USB data blocker is a USB adaptor which acts like a filter when you are charging your phone from a public source which is considered to be unsafe (for example, USB ports in an airport). The device impedes the transfer of data (both incoming and outgoing, such as malware), allowing only for the power required to charge the battery to be used.

The anti-RFID card ensures that credit cards are fully protected from data theft and are fully isolated from magnetic sources. It looks like a card and needs to be kept in your wallet. Lastly, the webcam cover is a small adhesive plastic sticker with a sliding open-close system to apply to your computer webcam with the aim of preventing hackers or viruses to use your device's webcam. All products are available in white and can be customised with a silk-screen and CMYK printing logo.

Recharge Set Led

KT005

SIZE (PACKAGING): 21,0 × 15,0 × 3,5 cm
CUSTOMIZATION (PACKAGING): Silk-screen Printing
CUSTOMIZATION (PRODUCTS): CMYK Printing, LED Logo, Silk-screen Printing

This set is made up of three essential items for charging any kind of smartphone, including ones which feature wireless charging. The set includes the Power Wave power bank, the Ray LED wireless charger and the Poker 4in1 multi-cable. These products are already available in our catalogue and have been purposefully chosen for this set.

Basic Kit

KT001

CABLE CUSTOMIZATION: Pad Printing
EARPHONES CUSTOMIZATION: Pad Printing
CAR CHARGER CUSTOMIZATION: Silk-screen Printing,
Pad Printing

The Basic Kit consists of a selected assortment of high-tech products from our catalogue: a white Loop car charger with blue edge, a white USB 3in1 cable with triple connectivity: Type C, Micro USB and Lightning connector and a set of white Dot in-ear headphone

buds. The kit is completed by a small black EVA plastic case with zip fastening and a practical inner pocket. This kit is an ideal promotional gadget because it is useful both for travelling and for leisure.

Journey Kit

KT002

CABLE CUSTOMIZATION: Pad Printing
ADAPTOR CUSTOMIZATION: Silk-screen Printing
CAR CHARGER CUSTOMIZATION: Epoxy Doming

The Journey Kit consists of a selected assortment of high-tech products from our catalogue: a white Globe Trotter universal travel adapter, a white Ring car charger with blue edge, and the USB 3in1 cable with triple connectivity: Type C, Micro USB and Lightning, also white. The kit is completed by a black EVA plastic case with

zip fastening and a practical inner pocket. Both the case and the products can be customised with the company logo. This kit is an ideal promotional gadget because it is useful both for travelling, for work and for leisure.

The importance of rebranding: what is it and why promotional gadgets are crucial

By definition, rebranding is the process of strategic change of a company’s brand identity. It may consist in choosing a new name, logo, or communication strategy, with the intention of reshaping its identity and positioning it differently in the reference market.

Sooner or later, all companies need to renovate and “refresh” their corporate image, or address new markets and targets, or strengthen their relationship with their original target.

Rebrand your company’s image with 100% Custom gadgets

A GADGET THAT REALLY TALKS ABOUT YOU

Your logo and your products are unique and this is the best way to enhance them

EVEN THE BUDGET IS CUSTOMIZED!

Different price brackets, to suit any budget

BIG PROJECTS, MINIMUM QUANTITIES

The minimum order quantity is just 100 units!

REAL 3D AND 2D REPRODUCTION OF ANY SHAPE OR LOGO!

Ultimate styling appeal and excellent results in terms of shape and colors

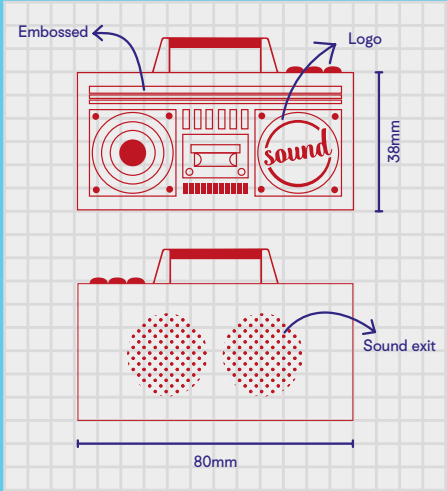

MAKE UP YOUR OWN GIFT SET

You can create an entire range of different products with the same customized shape

YOUR LOGO

OUR PROJECT

YOUR PRODUCT

Whatever the case, one of the most effective ways to rebrand a corporate logo is to make company gadgets to be distributed to customers and employees and on which to imprint the elements of the new brand image.

Our 100% Custom gadgets are simply perfect for the job, as they allow you to reproduce any three-dimensional shape, and to produce a custom-made promotional accessory, whatever the initial idea.

Any other product of this catalogue is actually a perfect candidate for a rebranding project, try a customized promotional gadget, look through these pages for some inspiration!

Plump Bluetooth

SPC03

SIZE: Ø 9,8 × 4,1 cm

Plump is a Bluetooth speaker with an ultra-durable design and IPX7 certification that makes it suitable for any environment, even underwater. Furthermore, the high definition microphone allows you to answer your calls comfortably.

Power Mini Headset

EPC08

SIZE: 7,5 × 2,9 × 2,6 cm
PRINT AREA: 3,5 × 1,5 cm
CUSTOMISATION: Digital Printing

NEW

Power Mini is the mono headset with a minimal design, so it’s perfect if you want convenience and versatility without sacrificing any style. The stylish charger case guarantees up to 50 hours of battery life.

Car Headset Mini Bluetooth EPC07

SIZE: Ø 2,1 × 100 cm
CUSTOMISATION: Pad Printing

Bluetooth® headset designed for use in the car. It has a multifunction answer button and a convenient charging base that plugs into the cigarette lighter socket. With its stylish black gloss finish and slim design, it's perfect so you don't get distracted when driving. For clear hands-free calls. The 2 USB ports on the back also let you charge other devices (e.g. a smartphone and a power bank).

Shadow – TWS EPC02

SIZE: 6,9 × 3,1 × 3,1 cm
PRINT AREA: 5,0 × 1,2 cm
CUSTOMISATION: Pad Printing, Laser Engraving

Shadow are the TWS earphones with an in-ear capsule featuring a minimal, discreet design. They're designed and made with innovative True Wireless Stereo technology which lets you connect the two completely wireless earphones at the same time.

Handy Wing Pro GDC02

SIZE: 11,5 × 10,0 × 9,0 cm
CUSTOMISATION: Pad Printing

Handy Wing Pro is the in-car holder that hooks onto the air vents and features the One Hand Gravity System: the holder adjusts its length and width by itself so the driver can insert or remove a phone with just one hand in one quick, comfortable movement. The scratchproof metallic satin finish makes it a stylish, minimal in-car holder.

Wireless Fast Charger Pad WCC03

FAST CHARGE

SIZE: Ø 10,0 cm
CUSTOMISATION: Pad Printing

PAD is the Cellularline wireless charger, with Qi certificate issued by the Wireless Power Consortium, which allows you to quickly charge all phones compatible with Qi wireless charging. The smartphone is recharged with a simple gesture, laying it on the surface of the Pad. The WIDEACTIVE™ 1 technology which provides for the use of a single coil, ensures an efficient and safe charge, without overheating the phone.

Wireless Fast Charger Stand WCC04

FAST CHARGE

SIZE: Ø 8,4 × 12,0 cm
CUSTOMISATION: Pad Printing

STAND is the Cellularline wireless charger, with Qi certificate issued by the Wireless Power Consortium, which allows fast charging of devices compatible with Qi wireless charging. Two-coil WIDEACTIVE™ 2 technology increases the charging surface. The smartphone can be recharged both vertically, making it easier to view the contents and interacting with the screen during charging, and in a horizontal position, for optimal viewing of the videos.

Power Slim 10000

PBC03

SIZE: 11,2 × 4,4 × 1,9 cm
PRINT AREA: 2,5 × 9,5 cm + 3,0 × 8,5 cm
CUSTOMISATION: Digital Printing

Power Slim is an ultra-slim portable charger which offers fast charging and high capacity in an incredibly light package: the best compromise between power and size. Power Slim is available in black and white and can be customized with digital printing.

Popmount Multi-surface

Put your phone wherever you want with our best selling multi-surface mount.

- Designed specifically for PopSockets PopGrips
- Phone is viewable in both portrait and landscape mode
- Mounts on multiple surfaces (almost anywhere!)
- Removes without leaving any residue

Popmount Car Vent

Get your phone out of your hands and secure it while driving.

- Designed specifically for PopSockets PopGrips
- A car mount designed to fit most car vents. Easily clips into horizontal, vertical, and angled air vents
- Not all vents are created equal, so the mount fork can be rotated to accommodate a wider range of vent sizes
- Phone is viewable in both portrait and landscape mode
- Look, Ma! No hands.

TAILORED PROJECTS

*Tailored projects
to promote your
uniqueness*

We work in the consumer electronics market since more than 10 years and we are obsessed with catching innovations as they approach. When we select the products that will be later included in our promotional catalogue, we strive to anticipate our clients' needs, eager to provide solutions for any request we may receive.

EVERY COMPANY IS ONE-OF-A-KIND.

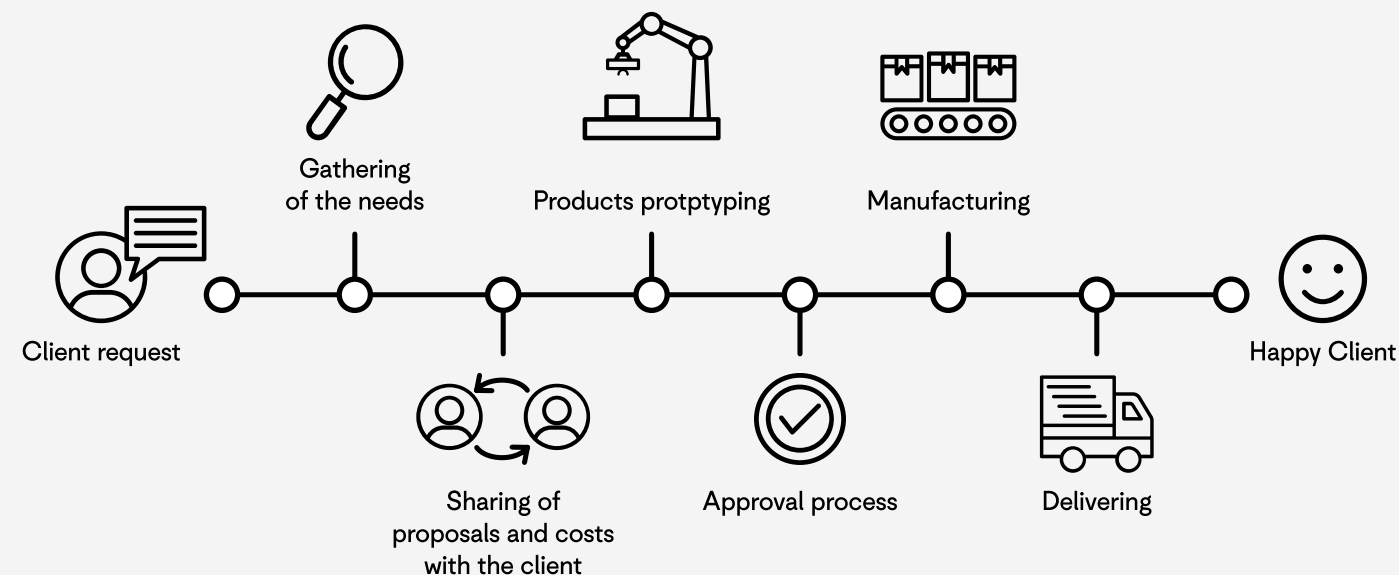

However, every company is unique and so are its needs. That is why no standard catalogue could ever meet individual requirements, but we are ready also for this!

"We are specialized in delivering bespoke projects across any industry sector and for any promotional enterprise."

We develop tailored and extra-catalogue products based on the requirements of our clients, so if you haven't found yet what suits you perfectly, all you need is calling on us for a made-to-measure project.

THE PRODUCTION LINE.

From the first touch point to manufacturing, we work closely with our customers to create their company's original equipment.

LET'S GET REAL: SOME EXAMPLES OF OUR TAILORED PROJECTS.

THE PRIVACY SET: HOW TO MAKE THE MOST OUT OF THE OPEN MARKET OFFER

One of our clients appointed us to develop a product focused on data protection and IT security. Our research brought us to three products that were not yet included in our catalogue: a USB data blocker, a RFID card and a webcam cover.

The first is an adaptor to place between the charging cable and the USB socket, that allows you to charge safely from any USB socket with no risk of data transfer to/from your device.

"This product was so successful that we decided to create a similar one to be included in our catalogue, you will find it on page 79."

The RFID card should stay in your wallet to prevent the theft of the credit card data, and the webcam cover is useful to prevent any virus or hacker from using the computer's video camera.

Together these three objects are an exhausting combination of the data security essentials. All of them have been personalized with the company logo.

We also completed the set with a custom packaging in rigid cardboard and a manual with the products' descriptions and instructions.

A BRANDED VAPE RECHARGE: SOMETHING NEVER SEEN BEFORE

For our client operating in the e-cigarette market we developed from scratch a multifunction product that serves both as a Power Bank to recharge the vape and as a convenient case to store the refill capsules. In addition, it recharges also the smarthphone. This item is first of his kind, and it took us several weeks of prototyping to get to the final model which ended up in a very satisfying result.

“This is one of the most genuine examples of how much we can customize a product: the size and shape of this “Power Bank & Travel Case” is designed to fit exclusively the vape and the capsules of the brand.”

The materials have been chosen accurately to attain an elegant look, both when the device is in use and when it is closed.

We have chosen a shiny dark grey plastic for the inside body, while the case, although in the same colour hue, looks different because it's made of soft rubber, a smooth material that is also pleasant to touch.

GOOGLE HOME: HOW WE LIAISE WITH BIG BRANDS

We received the request to supply a stock of Google Home devices, so we got in touch with the best providers worldwide to grant to our customer the best price and the best bundle.

“This collaboration has proven us that we can really support our customers in teaming up with any Brand, for real unique projects.”

We closed a convenient agreement with one of our European most trustful contacts and, in in a very short time, we had the official branded product by Google delivered at our premises.

The packages were then personalised with the customer logo, for a premium and outstanding promotional gift.

VIDEO BROCHURE AND WEB KEY: DIGITAL CONTENTS ON THE GO

One of our customers asked our support to boost an important product launch.

They needed something that could narrate the product in a clear yet charming and entertaining way. So, we realised for them a bespoke video brochure, namely a screen housed in a card based.

It is packaged in a similar way to its traditional paper counterpart but instead of opening to reveal text and images, the user gets a miniature LCD screen and a video playing. Videos are the most effective mediums for driving sales, they're easier to digest compared to a text and way more emotional.

For other customers we also realized a bespoke web key. What

is it? A USB chip programmed to direct the recipient to a website landing page. In short it automatically launches your web browser to a pre-defined web page. The Webkeys are small and light and are perfect to be placed for example on a paper press kit for the launch of a new corporate website.

LICENSED AND RETAIL PROJECTS

We are specialized in delivering bespoke projects also on brand licensing, either for the promotional or the retail market. Thanks to a solid experience in the development of licenses collections we can easily manage the approval process to provide products and packaging compliant with licensor's style-guides.
